Specifications

Overview:

The compact UD230 USB flash drive features a convenient capless design with a folding cover that protects the connector and does away with misplaced caps. The drive also sports a bold race-car-inspired look that'll stand out from the crowd.

Features:

Folding-Cover Design
The UD230's folding-cover design remedies the universal dilemma of misplaced caps. Snap it open to use. Snap it close when you're done with it. You have nothing to lose.

Enhanced Durability
Manufactured with the Chip-On-Board (COB) process, which results in a drive with fewer individual parts, the UD230 is more compact, as well as more impact-, water-, and dust-resistant than flash drives made with traditional processes.

A Range of Capacities
The UD230 comes in capacities ranging from 16GB to 64GB. Big or small, there's a capacity for you.

Easy Going
The UD230 features a lanyard hole for convenience and personalization. Attach it to a lanyard strap or keychain for easy carrying, or accessorize it with something that's uniquely you.

Near Universal Compatibility
The list of UD230-compatible devices goes on as far as the eye can see. PCs, tablets, smart TVs, in-car systems, game consoles, home entertainment systems, and more.
