Kingston DTLPG3/64GB Datatraveler Locker Plus G3 - with personal security (hardware encryption and password protection) - USB 3.0 (USB 2.0 backwards compatible), read/write: 135/40 MB/sec, 64Gb Flash Drive, with hardware-based encryption, 2-zones, 61x18.6x9.75mm, support Linux, Mac OS

Specifications

About this product

Buy the Kingston DataTraveler Locker+ G3 64GB USB 3.0 flash drive for secure, hardware encrypted storage that protects your personal files with built-in password protection and fast transfer speeds up to 135MB/s read and 40MB/s write. Shop now for a reliable encrypted USB drive in South Africa that keeps your data safe on Windows, Mac OS, and Linux systems while offering plug and play convenience with no software installation required.

Overview Summary

Kingston DataTraveler Locker+ G3 64GB Secure USB Driveis a compact, high-security flash storage device designed for users who need reliable portable data protection. It combines hardware-based encryption with password protection to safeguard sensitive files such as documents, financial data, and personal media.

This USB 3.0 flash drive delivers fast performance with read speeds up to 135MB/s and write speeds up to 40MB/s, ensuring quick file transfers for everyday and professional use. Its durable metal casing and 2-zone security system provide enhanced protection against unauthorized access and physical wear.

Compatible with Windows, Mac OS, and Linux systems, the drive offers plug-and-play functionality with no software installation required. It is ideal for secure mobility, allowing users to carry encrypted data safely across multiple devices.

Performance tier: Mid-range secure storage

Uses: Secure file storage, encrypted document transfer, business data backup, personal file protection, portable USB storage

Description

The Kingston DataTraveler Locker+ G3 64GB is engineered for users who prioritize data security and portability in one compact device. Built with hardware-based encryption, it ensures that all stored information remains protected through

advanced password authentication and automatic lockout after multiple failed login attempts.

Its USB 3.0 interface provides efficient transfer speeds, making it suitable for handling large documents, media files, and business data with ease. The sturdy metal housing adds durability, while the integrated key loop allows convenient everyday carrying.

Designed for cross-platform compatibility, this flash drive works seamlessly across Windows, Mac OS, and Linux environments, making it a versatile solution for professionals, students, and everyday users who need secure and portable storage.

Features

The Kingston DataTraveler Locker+ G3 offers advanced security and reliable performance in a compact design.

- Hardware-based encryption for enhanced data security
- Password protection with secure login system
- USB 3.0 interface with backward compatibility for USB 2.0
- Read speeds up to 135MB/s and write speeds up to 40MB/s
- 2-zone security system for private and public file access
- Durable metal casing for long-term protection
- Built-in key loop for easy portability
- Compatible with Windows, Mac OS, and Linux systems

What's in the Box

- 1 x Kingston DataTraveler Locker+ G3 64GB USB Flash Drive

Specifications

- Brand: Kingston
- Model: DataTraveler Locker+ G3 (DTLPG3/64GB)
- Capacity: 64GB
- Interface: USB 3.0 (backward compatible with USB 2.0)
- Read speed: Up to 135MB/s
- Write speed: Up to 40MB/s
- Security: Hardware encryption and password protection
- Security zones: 2-zone encrypted storage system
- Dimensions: 61 x 18.6 x 9.75 mm
- Operating systems: Windows, Mac OS, Linux
- Material: Metal casing

FAQ

Is the Kingston DataTraveler Locker+ G3 secure?

Yes, it uses hardware-based encryption and password protection to keep stored data secure even if the drive is lost or stolen.

What devices is this USB drive compatible with?

It is compatible with Windows, Mac OS, and Linux systems and works via USB 3.0 and USB 2.0 ports.

What are the transfer speeds of this flash drive?

The drive offers up to 135MB/s read speed and up to 40MB/s write speed depending on system and file type.

Does it require software installation?

No, the security features are built in and the drive is ready to use without additional software installation.

Can it be used for both personal and business use?

Yes, it is suitable for personal file protection, business data transfer, and secure document storage.
