FEU-0810

LevelOne 8 Ports Fast Ethernet Unmanaged Switch

Product Overview

LevelOne 8 Ports Fast Ethernet Unmanaged Switch, 8-port 10/100 unmanaged, 8 Ethernet(10/100mbps) ports, unmanaged non-PoE Ethernet switch, internal power supply, green technology

Specifications

Overview:

The LevelOne FEU-0810 is a 10/100Mbps NWay Unmanaged Switch with outstanding performance and high efficiency. With 8 NWay auto-negotiation ports, this switch fulfills the needs of connecting users on a network with automatic selection of best network speed and duplex mode.

Features:

- Provides flexibility of 8 x 10/100BASE-TX ports
- 10/100Mbps-Full/Half-duplex, Auto-Negotiation, Auto-MDI/MDIX
- Supports 1K MAC address auto-learning and auto-aging
- IEEE 802.3x Flow Control protects against lost packets for reliable data transmission
- QoS control for traffic prioritization and bandwidth management
- LED indicator for monitoring link/activity
- Internal power supply
- Minimize carbon footprint with advanced energy efficient technology (IEEE 802.3az)

Power Saving Features
The FEU-0810 supports Green Ethernet and is compliant with IEEE 802.3az Energy Efficient Ethernet to provide power-saving benefits without compromising performance. One way is to automatically detecting the length of connected cables and to adjust power usage by saving energy on shorter cable connections.

Get Optimal Bandwidth for Media Traffics through VIP Ports
The FEU-0810 is designed with three port-based QoS ports which provide considerably enhanced bandwidth quality. Users on the three QoS ports can experience better performance for internet surfing, online gaming and multimedia streaming through prioritized bandwidth settings.

Easy to Use

The FEU-0810 is plug-and-play and supports all kind of network protocols to make installation and network management easy and fast. LED indicators provide a quick and easy way to read port and switch information.
