Overview:

Linkbasic 22cm UTP CAT6 Nano Thin Patch Cable - Grey
Linkbasic's 22cm CAT6 Nano Thin Patch Cable delivers reliable, high-speed network connections in a compact, flexible design. Perfect for tight spaces and professional setups, this cable ensures consistent performance without bulk.

Description:

This nano thin CAT6 cable supports data transmission speeds up to 10/100/1000/10,000Mbps. Its 28AWG stranded copper design enhances signal stability, while the molded boot offers extra strain relief. Ideal for office, home, or data center use, it combines durability with space-saving convenience.

Features:

High-Speed Network Performance

The cable supports all common Ethernet standards, providing seamless connectivity for high-demand applications. With its CAT6 rating, it ensures fast and reliable data transfer, making it suitable for video streaming, gaming, and professional networking tasks.

Compact and Flexible Design

Measuring just 22cm, this nano thin patch cable fits neatly into crowded server racks or behind desks. The slim profile reduces clutter and improves airflow in confined spaces, while maintaining excellent durability and performance.

Durable Construction

Constructed from stranded copper, the cable delivers stable signal transmission. The molded boot offers additional protection at the connector, preventing bending and wear, which extends the cable's lifespan even in frequent-use environments.

Easy Installation

Its short length and flexible design make the cable simple to route and manage, ideal for patch panels, network switches, and home office setups. It combines professional-grade performance with user-friendly handling.
