Brand-Rex Optical Panel Loaded With 24 x LC Duplex Connectors

Product Overview

Brand-Rex Optical Panel Loaded With 24 x LC Duplex Connectors, Each

Specifications

Overview:

The FibrePlus 19" 1U fibre Optic Patch Panels have been designed to optimise both the internal fibre management but also to add greater fibre density. Constructed from mild steel with a powder coated paint finish the panels are available in Black or grey. The Patch Panels offers a flexible and highly versatile solution for optical splicing and patching. The panel's shallow depth allows it to be installed within the majority of standard racks and wall mounted enclosures. The integrated design features ensure that even once installed panels can be readily re-configured to accommodate the changing needs of today's high speed networks.
