Features:

AI Editing Capabilities That Save Time
Filmora AI Credits operate on a dynamic credit system, allowing you to allocate usage based on your editing needs. This makes it easy to scale projects without committing to rigid workflows. Tools such as Smart Scene Cut deliver frame level precision, while AI Video Enhancer improves clarity and detail instantly. The platform is continuously updated, ensuring access to the latest AI innovations for competitive content creation.

Key AI tools include:

- Smart Short Clips extracts highlights from long videos for social ready content at 6 credits per minute
- Smart Scene Cut detects transitions with high accuracy at 1 credit per minute
- Text to Speech generates natural voiceovers at 1 credit per 10 characters
- Speech to Text converts audio into subtitles at 4 credits per minute with translation at 5 credits per minute
- AI Video Enhancer improves sharpness and clarity at 20 credits per use
- AI Music and Smart BGM generate custom royalty free tracks with flexible credit usage

Flexible Credit Usage and Creative Control
The credit system adapts to different workflows, from quick edits to complex productions. Whether you are building marketing videos or educational material, you can control how credits are consumed depending on the tools used and project complexity.

Typical usage examples:

- AI Idea to Video sessions average between 300 and 800 credits depending on complexity
- Text to Image generation starts at 5 credits per scene reference
- Image to Video ranges from 60 to 300 credits per scene based on detail level
- AI Script generation and conversion to video consumes between 20 and 30 credits per task
- AI Copywriting and AI Mate functions use 10 credits per request

Advanced Video Generation and Enhancement Tools
Filmora includes a wide range of AI driven production tools designed for modern content demands, from short form clips to high resolution video generation.

Core technical points:

- AI Text to Video supports multiple modes with usage ranging from 50 to 450 credits per task
- AI Image to Video supports several engines with usage from 40 to 450 credits depending on output quality
- Video Extend allows forward or backward extension with credit usage based on resolution and duration
- AI Voice Cloning enables custom voice generation at 100 credits per use
- AI Sound Effects and AI Stickers enhance creative output with low credit consumption

Credit Validity and Allocation
Credits are issued based on plan type and usage source, providing flexibility for different user scenarios.

Important details:

- Subscription issued credits are valid for 30 days from issuance
- Perpetual plan credits remain valid permanently

- AI credit packs and promotional credits are valid for 1 year from purchase
- Legacy credits from older versions retain permanent validity
