KeyChron Cherry MX2A Silent Red Switch Set

Product Overview

KeyChron Cherry MX2A Silent Red Switch Set, Linear (No click) Switch Type, 1.9mm pre-travel, 3.7mm Travel distance, Quiet Sound level, Spring Steel, 110 Switches

Specifications

Overview summary:

The**Keychron CHERRY MX2A Silent Red RGB Switch Set**offers a premium typing and gaming experience with its smooth, linear keystrokes and refined silent operation. Featuring an optimised lubrication process and barrel spring geometry, these switches reduce friction and scratchiness for consistently quiet and responsive performance. Designed for users who value both precision and minimal noise, they are perfect for office environments and gaming setups where silence is key.

Built with a durable gold crosspoint contact system, the switches provide reliable performance with over**50 million keystrokes** . Compatible with most hot-swappable mechanical keyboards, these switches support SMD RGB lighting for customizable backlighting effects. The linear design ensures a quiet, low-profile sound level without compromising fast, smooth key actuation.

This switch set is ideal for**gamers, typists, and professionals**seeking a quiet yet responsive mechanical switch. Whether you're working in a noise-sensitive office or gaming late into the night, the silent yet precise keystrokes of the MX2A Silent Red RGB switches deliver excellent control and comfort.

South African buyerslooking for a silent mechanical switch upgrade should consider the**Keychron CHERRY MX2A Silent Red RGB Switch Set**for its longevity, smooth performance, and quiet operation.**Order now**from local suppliers and elevate your keyboard experience with these highly reliable silent switches.

Overview:

Enhance your typing and gaming experience with the Keychron CHERRY MX2A Silent Red RGB Switch Set, the latest evolution of the renowned CHERRY MX switches. Designed for unparalleled precision and durability, the MX2A series features a smoother keystroke, improved actuation consistency, and a refined sound profile. Whether you are a dedicated typist, an esports professional, or a mechanical keyboard enthusiast, these switches deliver a premium feel that elevates every keystroke.

The Keychron CHERRY MX2A Silent Red Switch Set introduces an optimised lubrication process that enhances smoothness while reducing friction, resulting in a seamless and responsive performance. The gold crosspoint contact system ensures superior reliability with up to 50 million keystrokes, making these switches a long-term investment for your mechanical keyboard. Available in multiple variants, including linear, tactile, and clicky options, this set caters to every user preference, from ultra-responsive keypresses to satisfying tactile feedback. Upgrade your keyboard's performance with the Keychron CHERRY MX2A Silent Red RGB Silent Switch Set and experience precision-engineered keystrokes with every press.

Features:

- High-Precision Ring Lubrication reduces friction for smoother keystrokes
- Barrel spring geometry reduces inner scratches
- Unique spring-centering stem structure provides consistent actuation
- Bottom housing design minimises scratchiness and enhances acoustics
- Industry-leading gold crosspoint contact over 50 million keystrokes
- Supports most mechanical keyboards with hot-swappable sockets.

WHAT'S IN THE BOX:

- Keychron CHERRY MX2A Silent Red RGB Switch Set x1

Specifications	
Product Code	G204
Switch Type	Linear (No Click)
Actuation Force	45 cN
Initial Force	30 cN
Final Force	100 cN
Standard grid dimensions	19.05 mm
Switching voltage	2 - 12V AC/DC
Switching Current	max. 10 mA, min. 10 uA
Keystroke Lifespan	Over 100 million actuations
IP Protection class	40
Bounce time	typically < 1 ms
Pre-lubed	Yes
Pre-Travel	1.9mm
Travel Distance	3.7mm
Sound Level	Quiet
Suitable for	Gaming/Office
Stem	Plastic polymer, MX stem
Upper Housing	Plastic polymer
Housing Base	Plastic polymer and glass fibre
Spring	Spring Steel
Pins	3-Pins
SMD LED Support	Yes
Number of Switches	110
PS	SMD is an acronym for Surface Mounted Device. Their LEDs are attached to a rectangular printed circuit board (PCB). These LED chips can come in a variety of shapes and sizes that can produce different light intensities and colours.
