GA-LWG923

Logitech G923 TrueForce SIM Racing Wheel + pedals (PC / PS4 / PS5 / XBox)

Product Overview

Logitech 941-000149 G923 TrueForce SIM Racing Wheel + pedals (PC / PS4 / PS5 / XBox), Hall-effect steering sensor, Dual-motor force feedback with TrueForce, Overheat safeguard, Nonlinear brake pedal, Patented carpet grip system, Textured heel grip, Self-calibrating

Specifications

Features:

FEEL THE FUTURE OF RACING

Meet the next generation of racing wheels. The award-winning Logitech G design is reengineered to dial into your game physics, delivering unprecedented realism. Feel the pistons pumping, the gravel crunching, and every shift, drift, and hairpin turn like never before.

NEXT-GEN SIMULATION

Our latest innovation in force feedback technology connects directly to in-game simulation engines and physics to produce higher fidelity, real-time responses. The feedback frequency range is also increased for dramatically improved detail and realism compared to previous generations. TRUEFORCE and advanced features require game integration. Visit logitechg.com/support/g923-xb1 for a complete list of supported games.

FEEL TRUEFORCE ON THESE GAMES - CLOSED-LOOP MOTOR CONTROL

The right current means the right torque. G923s advanced firmware monitors all the current flowing through the wheel motors, continuously adjusting voltage to match outputs from game physics. By going beyond default settings, G923 delivers pinpoint accuracy and unprecedented realism.

MORE TRACTION. LESS SMOKE.

Get off the starting line cleaner and faster with a programmable dual clutch launch assist in supported games.

CRAFTED FOR RACING

The classic design-modernized. The new colorway, premium brushed metal, automotive-style leather stitching, and polished pedals give G923 a professional finish. Form follows function with an integrated center marker and rotary dial.

ON-WHEEL GAME CONTROLS

Complete Xbox Series X|S, Xbox One, PS5 or PS4 controls are built right into the steering wheel. No matter how you race, every command is directly at hand.

24-POINT SELECTION DIAL

Traction, torque, brake force-its all adjustable from an integrated dial that you control. TRUEFORCE and advanced features require game integration. Visit logitechg.com/support/g923-xb1 for a complete list of supported games.

PROGRESSIVE BRAKE PEDAL

More responsive, more accurate. The progressive spring mimics the performance of a pressure-sensitive brake system for a real racing experience. Reposition the pedal faces for heel-toe maneuvers and even more control.

BUILT-IN REV INDICATOR

Built-in colored LEDs show your RPM range in supported games. See when youre redline-ing-right in your line of sight. TRUEFORCE and advanced features require game integration. Visit logitechg.com/support/g923-xb1 for a complete list of supported games.

Shift Into Overdrive

To take the racing simulation experience over the top, add the realism of a dedicated shifter. With a short-throw feel in a 6-speed "H" pattern shifter with push-down reverse, the Driving Force Shifter from Logitech G is a driving companion you wont soon forget.

CUSTOMIZE WITH G HUB

Take full control of your rig. Adjust wheel sensitivity, force feedback levels, and button customization via powerful G HUB Gaming Software for PC. Download at logitechG.com/downloads Custom-build multiple profiles for any game and application.

Specifications	
Product Code	GA-LWG923
Requirements (Xbox Series X, S and Xbox One)	Xbox Series X, S or Xbox One game system
	Game that supports Logitech force feedback racing wheel.
Requirements (PLAYSTATION 5 OR PLAYSTATION 4)	PlayStation 5 or PlayStation 4 system
	Game that supports Logitech force feedback racing wheel.
Requirements (PC)	Windows 10
	150 MB of available hard disk space
	USB 2.0 port
	Game that supports Logitech force feedback racing wheel.
Package Contents	Steering wheel
	Pedals
	Power supply
	User documentation
Wheel Physical Specifications	Height: 270 mm
	Width: 260 mm
	Depth: 278 mm
	Weight without cables: 2.25 kg
Pedals Physical Specifications	Height: 167 mm
	Width: 428.5 mm
	Depth: 311 mm
	Weight without cables: 3.1 kg
Wheel Technical Specifications	Rotation: 900 degrees lock-to-lock
	Hall-effect steering sensor
	Dual-Motor Force Feedback with TRUEFORCE
	Overheat safeguard
Pedal Technical Specifications	Nonlinear brake pedal
	Patented carpet grip system
	Textured heel grip
	Self-calibrating

Materials	Wheel spokes: Anodized aluminum
	Wheel cover Hand-stitched leather
	Steering shaft: Steel
	Shifter paddles: Brushed stainless steel
	Mounting clamps: Glass-filled nylon
	Pedal frames and arms: cold rolled steel
	Pedal faces: Brushed stainless steel
	Pedal piston sleeves: Polyoxymethylene thermoplastic (POM)
Part Number	Black PS4 : 941-000149
	Black Xbox : 941-000158
