

GALAXY-TAB2-N8000-NT

Samsung Black 10.1" Galaxy Note with Android 4.0

Product Overview

Samsung Black 10.1" Galaxy Note, Quad core, 32GB, WIFI, 3G, Stylus pen, Android 4.0 (Ice Cream Sandwich) OS, 10.1" WXGA TFT Technology, 5.0MP CMOS Camera Resolution.

Specifications

Features:

Multiscreen Real multitasking on the portable 10.1" screen

Now, you can do 2 things at the same time as you usually do on the PC. For example, what if you want to see the actor's profile while watching a movie you recently downloaded? or if you find a nice restaurant which want to scrap on the Note? Just use the "Multiscreen" button and open the internet browser or the S Note. You don't need to stop the movie or the browser so that you surf web or make a note. Do you want to scrap the image on the Note? Just capture and drag it to the S Note opened right next to the web page.

Embedded S Pen: Real Pen-like feeling for natural writing experience

Precise versatile S Pen enables you to get a premium experience for note-taking, sketching, drawing, and other forms of creative expression.

S Note: The easy-to-use creation tool

ComX Computers

Product Specification Sheet

7 Templates to express life's every detail. Make your own story once selecting one of the S Note templates. S Note makes your note-taking and creation rich and neat. 7 templates : Note / Idea note / Meeting Note / Magazine / Diary / Recipe / Travel.

Shape Match

Visualise your ideas better by turning squiggly shapes into neat organised figures. The Shape Match will automatically corrects the lines and shapes.

Formula Match

Easily recognise complicated formulas to text and even find detailed and visual solutions.

Adobe Photoshop Touch: Give photos the magic touch

Now, everyone can create dazzling multilayered images, apply professional effects, and share the results through Facebook, and more - all from the convenience of your touchscreen tablet.

Allshare Play & Cast - Seamless Sharing

Connection to other tablets, laptops or TVs lets you share and experience multimedia together, wherever you are.

Learning hub

Create your own learning schedules, take tests, even edit and publish content.

Video hub

Buy or rent movies and TV shows.

S Planner

Manage your schedule with ease.

Fast & Powerful

You will enjoy the best performance from a very fast and powerful 1.4GHz quad core processor that delivers the most seamless, enjoyable mobile experience. Everything from navigating UI to multitasking to web surfing is made faster and easier; indulge in multimedia on the go without a second thought. Large battery capacity means less frequent recharging because your power lasts longer for more sustained usage.

HSPA+ 21 & Wi-Fi Channel Bonding

Revel in mobile multimedia without restraint or delay with impressively fast transmission speeds that allows you to get your files so much quicker. HSDPA+ is three times speedier, thereby reducing your wait time to a third so you can enjoy your multimedia even sooner. Wi-Fi Channel Bonding also boosts wireless data transmission rates by efficiently using two bonded channels instead of one so you can access web-based content such as movie downloads, music files and games in half the usual time. Wait less, enjoy sooner -- it's as simple as that.

Best Multimedia Experience on a Large Screen

1080p Full HD Playback on a larger screen promises to intensify your viewing pleasure. Whether you're watching downloaded videos, catching the latest viral sensation on YouTube or live streaming, you'll be able to see everything in bright, crystal clear high definition.

Cross-platform compatibility with multi codec means you'll never be frustrated by blocked or incompatible files in your downloads, viewing and transfers for a seamless mobile experience.
