Performance tier:Premium

Uses:Nintendo Switch gaming, motion-sensitive games, competitive play, marathon gaming sessions, customizable gameplay

Overview:

Mad Catz C.A.T. 12 Ergonomic RGB Switch Controller

Elevate your Nintendo Switch gameplay with the Mad Catz C.A.T. 12. Designed for comfort, precision, and style, this controller offers a next-level gaming experience for both casual and competitive players. Compatible with Switch, Switch Lite, and Switch OLED models, the C.A.T. 12 blends ergonomic design with customizable functionality to help you play longer and perform better.

Description:

The C.A.T. 12 controller features an ergonomic non-slip grip, programmable rear triggers, and 6-axis motion sensing for precise control. Charge your Switch while playing and enjoy immersive dual-vibration feedback. Customize your controller's appearance with 8-color RGB lighting and tailor your gameplay with adjustable turbo and macro functions. Perfect for motion-sensitive games or marathon gaming sessions.

Features:

Comfort-Driven Design for Longer Play

The C.A.T. 12 is built for gamers who demand comfort and performance. Its ergonomic grip reduces hand fatigue during extended sessions, while strategically placed buttons-including two programmable rear triggers-offer full control for fast-paced gaming. Non-slip materials ensure a secure hold, keeping you focused on the action.

Seamless Connectivity and Play-and-Charge Functionality

Connecting the C.A.T. 12 is simple with the USB Type-C connector. Plug-and-play functionality allows immediate use without complex setup, and the charge-while-playing feature ensures your controller stays powered during even the longest gaming marathons.

Immersive Vibration and Motion Control

Experience responsive gameplay with dual built-in vibration motors that deliver tactile feedback for every action. The integrated 6-axis gyro sensor provides accurate motion control, perfect for motion-sensitive titles like Zelda, Mario Kart 8 Deluxe, and other Switch favorites.

Adjustable Turbo and Vibration Settings

Gain a competitive edge with the adjustable turbo function, allowing up to 20 shots per second for rapid-fire scenarios. Fine-tune vibration intensity with five levels, ranging from 30% to 100%, or switch it off entirely to match your preferred

gameplay style.

Programmable Macros and Button Mapping

Enhance your gaming precision with the C.A.T. 12's macro and mapping options. Record up to 20 steps of combined inputs for complex moves or assign specific actions to the rear trigger buttons. This level of customization lets you create personalized controls tailored to your playstyle.

Dynamic RGB Lighting for Personalized Style

Customize the look of your controller with eight vibrant RGB colors, including a unique phantom option. Choose between single-color LED or seven-color breathing effects, and adjust brightness across four levels to match your gaming setup. Create a controller that not only performs well but also looks spectacular.

Key Highlights

- Compatible with Nintendo Switch / Switch OLED
- Ergonomic, non-slip grip for comfort
- 6-axis gyro sensor motion control
- Adjustable turbo and vibration functions
- Programmable rear trigger buttons and macros
- Play-and-charge USB-C connectivity
