About this product

The Mad Catz C.A.T. 17 Customizable Ergonomic Game Controller (GCSWDOINWH003-0) delivers precision gaming control with Hall Effect triggers and joysticks, three-level adjustable trigger actuation, remappable macro-enabled buttons and adjustable dual vibration. Connect via Bluetooth or USB-A to USB Type-C for compatible gaming on PC, Nintendo Switch, iOS and Android devices. Customize button layouts and gaming profiles using the KeyLinker app, and enjoy extended play with up to 20 hours of battery life and the included charging dock. Buy the Mad Catz C.A.T. 17 gaming controller online for a customizable gaming experience in South Africa.

Overview Summary

Mad Catz C.A.T. 17 Customizable Ergonomic Game Controller

The Mad Catz C.A.T. 17 is a customizable gaming controller designed for players who want greater control over their gaming experience. Featuring magnetic Hall Effect sensors in its triggers and joysticks, it provides responsive input and helps reduce the stick drift associated with traditional potentiometer-based controls. Three adjustable trigger actuation levels let players tailor trigger sensitivity to different gaming styles.

Designed for versatile gaming, the C.A.T. 17 supports wired USB connectivity and Bluetooth wireless connectivity across compatible PC, Nintendo Switch, iOS and Android devices. Macro-enabled, remappable buttons, switchable D-pad and joystick input modes, preset button layouts and adjustable dual vibration provide flexible control. The KeyLinker companion app supports profile management and additional customization, while the included charging dock helps keep the controller ready for use.

Performance tier: Advanced customizable gaming controller

Uses:PC gaming, Nintendo Switch gaming, mobile gaming, action games, racing games, fighting games, platform games, customizable gaming controls

Overview

Built for serious gamers, it delivers pro-level control and cross-platform versatility. Enjoy adjustable trigger actuation, macro-enabled buttons, and real-time customization through the KeyLinker app. Instantly switch between D-Pad and joystick modes, fine-tune dual vibration feedback, and connect via wired or Bluetooth for seamless compatibility. Crafted with premium gunmetal triggers and bundled with a charging dock, the C.A.T. 17 gives you the ultimate edge in every game.

Description

The Mad Catz C.A.T. 17 Customizable Ergonomic Game Controller is built for gamers who want adaptable controls and multi-platform connectivity. Its ergonomic design, configurable buttons and responsive Hall Effect technology make it suitable for a range of gaming genres, from fast-paced action games to racing and platform games.

Hall Effect sensors are integrated into the triggers and joysticks to deliver smooth, responsive input. The magnetic sensing technology avoids the physical contact used by traditional potentiometers, helping reduce the risk of conventional stick drift. Three trigger actuation levels allow players to adjust trigger sensitivity to suit their preferences and the requirements of different games.

For personalized gameplay, the controller includes macro-enabled and remappable buttons. Players can customize controls, manage profiles and adjust supported settings through the KeyLinker companion app. The ability to switch between D-pad and joystick input modes and change preset button layouts makes it easier to adapt the controller to different gaming genres.

The C.A.T. 17 supports both wired USB connectivity and Bluetooth wireless connectivity. It is compatible with iOS, Android, Nintendo Switch and PC, subject to the requirements of the device and game. Its rechargeable battery provides up to 20 hours

of gaming on a single charge, depending on usage and settings. An included charging dock provides a convenient way to recharge and store the controller between sessions.

Adjustable dual vibration provides configurable feedback during supported games, allowing players to choose a vibration strength that suits their preferences. Whether used for everyday gaming or more personalized control setups, the Mad Catz C.A.T. 17 offers a flexible combination of connectivity, customization and responsive input.

Features

The Mad Catz C.A.T. 17 combines customizable controls, responsive input technology and multi-platform connectivity in one gaming controller.

- Hall Effect triggers and joysticks: Magnetic sensors provide smooth, responsive control and help reduce conventional joystick drift.
- Adjustable trigger actuation: Choose from three trigger sensitivity levels to suit different games and playing styles.
- Customizable buttons: Remap supported buttons and configure macro commands for personalized gameplay.
- KeyLinker app support: Manage profiles, remap controls and adjust supported settings using the companion app.
- Switchable D-pad and joystick input: Change input modes to suit different gaming genres and control preferences.
- Preset button layouts: Switch between supported layouts for different games or users.
- Adjustable dual vibration: Customize vibration intensity for a more personalized gaming experience.
- Wired and Bluetooth connectivity: Choose between a wired USB connection and wireless Bluetooth on compatible devices.
- Multi-platform compatibility: Designed for use with compatible PC, Nintendo Switch, iOS and Android devices.
- Up to 20 hours of battery life: Enjoy extended gaming sessions on a single charge, depending on usage and settings.
- Included charging dock: Recharge and store the controller conveniently between gaming sessions.
- Gunmetal trigger finish: Premium gunmetal-finish triggers contribute to the controller's distinctive design.

Adjustable Trigger Actuation
Fine-tune trigger sensitivity to match your play style-whether you prefer rapid firing in shooters or precision control in racing games, this feature gives you the edge with three levels of adjustable actuation.

Hall Effects Triggers & Joysticks
Experience ultra-smooth control and unmatched durability with magnetic Hall Effect sensors on both triggers and joysticks. Unlike traditional potentiometers, Hall sensors deliver drift-free accuracy, consistent actuation, and long-lasting responsiveness-ensuring every press, pull, and tilt translates into pixel-perfect precision for competitive gameplay

20 Hours of Continuous Gaming (max.)
Stay in the action longer with a high-capacity battery that delivers up to 20 hours of nonstop gaming on a single charge. Whether you're grinding ranked matches or exploring open worlds, the C.A.T. 17 keeps you powered through every session without interruption.

Charging Dock Included
Keep your controller powered and ready with the included dock. Eliminates cable clutter and ensures it's always charged when it's game time.

Macro-enabled & Remappable Buttons
Set up complex combos or custom commands with ease. Remap buttons to suit different games or personal preferences, enabling faster execution and more efficient control.

D-Pad / Joystick Function Swap
Instantly switch between traditional D-pad and joystick input to suit various genres, from fighters to platformers-giving you optimal control at all times.

Easy Button Layout Switching

Swap between preset layouts in seconds. Ideal for shared use, tournaments, or switching between multiple game genres with ease.

Adjustable Dual Vibration
Customize vibration strength for immersive feedback. Whether you want subtle cues or intense rumble effects, the choice enhances your awareness and reaction time.

Enhanced Customization via Companion App (KeyLinker)
Gain deeper control with the KeyLinker app. Manage profiles, remap keys, and adjust settings remotely-perfect for on-the-fly optimization and pro-level play.

Multi-Platform Wired & Bluetooth Connectivity
Game on PC, consoles, or mobile without swapping controllers. Enjoy low-latency wired play or wireless freedom with seamless switching across devices.

- Length: 154.2 mm
- Width: 72.5 mm
- Height: 111.1 mm
- Dimensions in cm: 15.42 x 7.25 x 11.11 cm
- Weight: 358 g
- Weight in kg: 0.358 kg
- Product code: GCSWDOINWH003-0

FAQ

What is the Mad Catz C.A.T. 17 gaming controller?

The Mad Catz C.A.T. 17 is a customizable ergonomic gaming controller with Hall Effect triggers and joysticks, adjustable trigger sensitivity, remappable buttons, Bluetooth connectivity and a charging dock.

Which devices are compatible with the Mad Catz C.A.T. 17?

The controller supports compatible iOS, Android, Nintendo Switch and PC devices. Compatibility may depend on the device, operating system, game and connection method.

Does the Mad Catz C.A.T. 17 support wireless gaming?

Yes. The controller supports Bluetooth wireless connectivity as well as wired USB connectivity on compatible devices.

What are Hall Effect triggers and joysticks?

Hall Effect triggers and joysticks use magnetic sensors to detect movement and input. This design reduces reliance on the physical contacts used in traditional potentiometers and helps reduce the risk of conventional joystick drift.

Can I customize the buttons on the C.A.T. 17?

Yes. The controller supports button remapping, macro-enabled controls, preset button layouts and profile customization through the KeyLinker companion app.

Can I adjust the trigger sensitivity?

Yes. The C.A.T. 17 offers three trigger actuation levels so you can tailor trigger response to your preferences and supported gaming applications.

How long does the Mad Catz C.A.T. 17 battery last?

The manufacturer states a maximum battery life of up to 20 hours per charge. Actual battery life can vary depending on usage, vibration settings and other operating conditions.

Does the Mad Catz C.A.T. 17 include a charging dock?

Yes. A charging dock is included to provide a convenient way to recharge and store the controller between gaming sessions.

Can I use the C.A.T. 17 for racing and fighting games?

Yes. Adjustable trigger actuation, customizable buttons, switchable D-pad and joystick input modes, and adjustable vibration make it suitable for compatible racing, fighting, action and platform games.

Can I connect the Mad Catz C.A.T. 17 to a smartphone?

The controller supports compatible iOS and Android devices through Bluetooth. Check your smartphone's operating system, the game's controller support and the controller setup instructions before use.

What are the dimensions and weight of the C.A.T. 17?

The controller measures 154.2 x 72.5 x 111.1 mm and weighs 358 g.

Is the Mad Catz C.A.T. 17 suitable for competitive gaming?

Its responsive Hall Effect controls, adjustable triggers and customizable buttons can benefit players who want more control over their setup. Actual performance depends on the game, device compatibility and individual preferences.
