Specifications

Overview summary:

This mouse pad makes a bold statement, exuding premium quality and status above the rest!

The Thermaltake M900 XXL RGB Mouse Pad is a true statement piece in the gaming world, offering a massive 1600 x 800 mm surface that delivers unrivaled space, style, and performance. Featuring 16.8 million customizable RGB colors, dynamic lighting modes, and seamless sync with TT RGB Plus, Razer Chroma, and even Alexa, it's engineered for immersive gaming environments. The semi-coarse cloth surface ensures optimal speed and pinpoint tracking for both laser and optical mice, while its non-slip rubber base and 4mm thick cushion maximize stability and comfort. Users consistently praise it as a status symbol among mouse pads - designed to impress and built to perform.

Mousepad tier: Ultra-premium RGB extended pad.

Uses: Gaming setups, streamers, esports, RGB enthusiasts, and high-end workspace environments.

Overview:

M900 XXL RGB Mouse Pad

GMP-M16-BLKSXC-01

The M900 XXL RGB is a full surface mouse pad featuring 16.8M true RGB color illumination along with 7 dynamic lighting effects. It is made for user convenience, and its cloth texture is built to suit all playstyles and optimized for all mouse types, providing high responsiveness tracking and pinpoint accuracy for total in-game control.

Features:

Full surface size

ComX Computers

Product Specification Sheet

The M900 XXL RGB mouse pad's full surface size (1600mm x 800mm x 4mm) offers limitless space and unrestricted movement for both keyboard and mouse. Enjoy fluid, uninterrupted gameplay with complete freedom of motion.

Striking visuals

Enhance your gaming ambiance with 16.8 million RGB color options that deliver brilliant visibility and eye-catching style. Choose from 7 lighting effects, and customize brightness and lighting speed to suit your setup.

Total control with superior responsiveness and accuracy

Optimized with a smooth semi-coarse textured weave, the M900 XXL RGB delivers superior responsiveness for both laser and optical mice. Expect low friction, high precision, and consistent tracking performance across all game genres.

Maximized comfort

The 4mm thick smooth surface offers enhanced comfort for long gaming sessions and adapts easily to most desk surfaces, helping smooth out minor surface imperfections underneath.

Built to last

Designed for durability, the high-quality stitched edges prevent fraying and warping. The non-slip rubber base ensures the mouse pad stays securely in place, eliminating unwanted movement or lift-off during intense gameplay.

iTAKE engine software

Take full control of your lighting with the Thermaltake iTAKE engine software. Sync all your compatible Thermaltake gaming peripherals and TT RGB PLUS products to create a unified RGB lighting ecosystem using the TT SYNC feature.

TT RGB PLUS compatible

Integrate seamlessly with other TT RGB PLUS-compatible devices including power supplies, liquid cooling, and case fans to unify your RGB lighting experience across all Thermaltake hardware.

Works with Amazon Alexa

Use Amazon Alexa Voice Service to control your lighting effects hands-free. With voice control integration, manage your setup without lifting a finger.

Sync with Razer Chroma lighting

The iTAKE engine software also syncs with Razer Chroma. With both iTAKE and Razer Synapse 3 installed, users can enjoy synchronized RGB lighting effects across TT RGB PLUS and compatible Thermaltake gaming products.
