Gizzu Hero Ultra Plus 3840Wh UPS Power Station

Product Overview

Gizzu Hero Ultra Plus 3840Wh UPS Power Station

Specifications

Overview:

Deliver power wherever and whenever you need it with the portable Gizzu Hero Ultra Plus UPS Power Station. The Hero Ultra Plus offers 3840Wh of battery capacity. It's great for keeping your devices charged during outdoor adventures and powering most household appliances during loadshedding. The elegant design is durable, robust, and can be taken with you on any adventure.

The Gizzu Hero Ultra Plus UPS Power Station features three 220V AC plugs, two USB ports, four Type-C ports, two DC ports, a car socket port, and an XT60 port. These ensure that you can charge or power multiple devices simultaneously. Pure Sine Wave technology and the ability to function like a UPS ensures that the Gizzu Hero Ultra Plus seamlessly switches over to battery power during loadshedding or a power outage, resulting in zero downtime for your connected essential devices.

The Hero Ultra Plus UPS Power Station is compatible with most large household appliances and power tools during loadshedding. Electric chainsaws, electric irons, air conditioners, hairdryers, and air fryers are just some of the products that you can still enjoy during a blackout.

The Gizzu Hero Ultra Plus UPS Power Station features Lithium Iron Phosphate (LiFePO4) batteries that recharge from 0% to 100% within 2.2 hours and has a rated lifespan of 3500 cycles. You can recharge the Hero Ultra Plus in multiple ways - Recharge from your car, solar panel, or from traditional wall sockets at the home or office.

A battery management system helps to proactively monitor and manage the rechargeable battery. In addition, the Hero Ultra Plus also features safety features like short-circuit, over-current, over-voltage, under-voltage, over-load, and temperature protection.

Please Note:

The total power consumption for all connected appliances must be less than 3600W. If the power requirement draw exceeds 3600W, the wattage overdraw protection will provide up to 10 seconds of runtime before the unit shuts itself down. Wattage draw exceeding 7200W peak will cause the device to immediately shut down and this may cause damage.

The Hero Series Power Stations use Lithium Iron Phosphate (LiFePO4) batteries. After 2 days in UPS mode, the battery capacity will throttle between 90-100%. The Battery Management System will drop the capacity after a full charge to around 90% to prevent overcharging. (This will not affect life cycles)

Features:

- 3840Wh Lithium Iron Phosphate (LiFePO4) batteries with 3x more battery cycles than a typical lithium-iron battery
- Ideal power solution to run a wide variety of large household appliances and power tools during loadshedding.
- Features UPS functionality with 10milliseconds switchover
- Recharge the battery from 0% to 100% within 2.2 hours
- Features 15 outlets - 3x 220V South African plugs, 2x battery expansion ports, 3x Type-C PD20W ports, 1x Type-C PD100W port, 2x USB ports, 2x DC 5521 ports, 1x car socket port, and 1x XT60 port
- Add up to 2 extra Gizzu batteries to expand capacity to 11520Wh. Great for even the most extreme outdoor adventures or extended loadshedding.
- Battery Management System proactively monitors and protects the battery
- Adjustable input power wattage (easily adjust your input wattage to avoid overloading your circuit)
- Intelligent safety features like over-charge, over-discharge, and short-circuit protection

Specifications	
Product Code	GPS3800UE
AC Input	220-240V/50Hz 2200W Max (2.2hrs)
XT90 Port	12-160V 2000W Max (3hrs)
Internal Battery Type	Lithium Iron Phosphate (LiFePO4)
Battery Capacity	3840Wh
Battery Expansion	2x Gizzu Battery Ports, 11520Wh Max Capacity
	Compatible SKU: GEB3800
Inverter	Pure Sine Wave
LED Torch	3W/4000k
AC Output	3x 220-240V/50Hz 3600W Rated
	3x Type-C 20W PD Port (5V-3A, 9V-2.22A, 12V/1.67A)
	1x Type-C 100W PD Port (5V/9V/12V/15V-3A, 20V/5A)
	2x USB-A 18W QC3.0 Port
	1x Car Socket Port (12V/10A, Max 120W), Total Share 10A Max
	2x DC5521 Ports (12V/3A)
	1x XT60 Port (12V/25A)
Battery Management System	Yes
UPS Mode (Switchover Time)	10ms
Lifespan	3500 Cycles
