GS432GB3200C22SC

Geil Pristine 32GB DDR4-3200 260pin CL22 1.2V SO-DIMM Notebook Memory

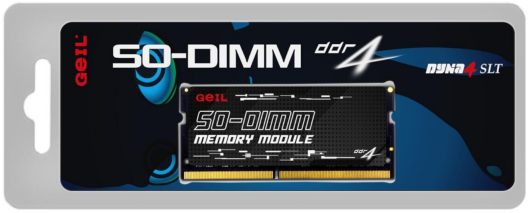

Product Overview

Geil Pristine 32GB DDR4-3200 260pin CL22 1.2V SO-DIMM Notebook Memory, 22-22-22-52 timing, Geil Dyna 4 SLT tested

Specifications

Overview Summary:

The GeIL Pristine 32GB DDR4 3200MHz SODIMM is a practical memory upgrade for compatible laptops that need more capacity for multitasking, productivity and everyday computing. With 3200MHz speed, CL22 timings and 1.2V operation, it provides a straightforward way to expand your notebook's memory.

Buy now to upgrade your compatible laptop with 32GB of DDR4 memory, or shop now for a reliable SODIMM module suited to demanding everyday workloads.

Performance tier: Mid-range

Uses: Laptop memory upgrades, multitasking, office productivity, web browsing, content creation, everyday computing

Overview:

GeIL Pristine 32GB DDR4-3200 SODIMM Notebook Memory
The GeIL Pristine 32GB DDR4 3200MHz SODIMM is a straightforward notebook memory upgrade for laptops that need a reliable performance boost. Running at 3200 MT/s with tight CAS 22-22-22-52 timings and a standard 1.2V operating voltage, it slots directly into compatible SODIMM slots without fuss. Each module is tested using GeIL's DYNA 4 SLT tester for compatibility and reliability on DDR4 platforms.

Description:

Upgrade a compatible laptop or notebook with 32GB of DDR4 memory and gain additional capacity for everyday computing, multitasking, productivity software and other memory-intensive workloads. The GeIL Pristine module operates at 3200 MT/s and uses 1.2V low-voltage operation, making it well suited to modern notebook systems that use DDR4 SODIMM memory.

With a single 32GB module configuration, this memory is a practical option when you want to increase available RAM without replacing the existing memory unnecessarily. GeIL's DYNA 4 SLT testing process also helps ensure the module meets the required standards for reliable DDR4 platform operation.

Features:

32GB DDR4-3200 Notebook Memory for Laptop Upgrades
With 32GB of capacity, this GeIL SODIMM provides plenty of memory for users who regularly work with multiple applications and demanding workloads. The 3200 MT/s data rate provides responsive DDR4 performance, while the 22-22-22-52 timing is designed for dependable day-to-day operation.

The module uses the compact SODIMM form factor required by many laptops and notebooks. Before purchasing, check that your laptop supports DDR4 3200 memory, 32GB modules and the required SODIMM configuration.

Key Benefits

- 32GB capacity for expanding compatible laptop and notebook memory
- DDR4 technology with a 3200 MT/s data rate
- CAS 22-22-22-52 timing for balanced performance
- 1.2V operating voltage for efficient notebook operation
- 260-pin SODIMM design for compatible laptops and notebooks
- Tested using the GeIL DYNA 4 SLT tester
- Single 32GB module configuration

Technical Details

- Memory type: DDR4
- Total capacity: 32GB
- Kit configuration: 1 x 32GB
- Speed: 3200MHz / 3200 MT/s
- CAS latency: 22-22-22-52
- Form factor: 260-pin SODIMM
- Voltage: 1.2V
- Colour: Black
- Intended use: Compatible notebooks and laptops

GeIL Pristine 32GB DDR4 SODIMM Part Number
For ordering and product identification, the part number / SKU is GS432GB3200C22SC. This identifies the GeIL Pristine 32GB DDR4-3200 260-pin SODIMM memory module.

What Is Included

The package contains one GeIL Pristine 32GB DDR4 3200MHz SODIMM notebook memory module in black.

Check Compatibility Before Installation

This RAM module is designed for compatible DDR4 notebook platforms. Confirm the laptop's supported memory type, maximum RAM capacity, supported module density and memory speed before installation. DDR4 SODIMM memory is not compatible with systems designed exclusively for DDR5 or desktop DIMM modules.

Specifications	
Product Code	GS432GB3200C22SC
Colour	Black
Memory Type	DDR4
Total Capacity	32GB
Kit Configuration	1 x 32GB
Speed	3200MHz
CAS Latency	22-22-22-52
Module Form Factor	SODIMM
Voltage	1.2V
