

GSP16A

GIZZU 16A Universal Voltage Protector Plug

Product Overview

GIZZU 16A Universal Voltage Protector Plug. Load-shedding equipment protector. 16Amps. Never worry about destroyed electrical goods during load shedding or cable theft. The plug will disconnect your equipment before the damage occurs!

Specifications

Overview:

The Gizzu Universal Voltage Protector Plug will keep your appliances protected against damage caused by high voltage, low voltage, voltage dips, and power surges. It monitors the electricity voltage and automatically disconnects the power if the voltage is too high, or too low, protecting appliances and electronics from damage. This is an essential accessory for environments with inconsistent power supply and is rated for 16A current. It regulates voltages between 180V and 260V to provide a stable supply to your appliance. If the voltage moves outside of these limits, power is cut to protect the equipment.

Recommended for fridges, freezers, coolers, washing machines, computers, TVs, and HiFis. Simply connect your appliance to the mains via the Gizzu Universal Voltage Protector Plug to keep it safe.

Features:

- Protects against high voltage, low voltage, voltage dips, and power surges
- Current protection up to 16A
- Low voltage protection from 180V
- High voltage protection from 260V
- Flame retardant material
- Start-up delay 90 seconds for high voltage and 90 seconds for low voltage
- Designed for fridges, freezers, cooler, washing machines, computers, TVs, and HiFis.
- Digital LED display

Product Specification Sheet

Specifications	
Product Code	GSP16A
Nominal Voltage	230Vac
Frequency	50/60Hz
Current Rating	16A
Spike Protection	160J
Low Voltage Protection	180V
High Voltage Protection	260V
Material	Flame Retardant PC V0
Product Dimensions	6.7 x 11.5 x 20.3 cm
Weight	163g
