GX-MAURUS

Genius GX Maurus Gaming Mouse

Product Overview

Genius GX Maurus Gaming Mouse - 3500dpi Optical Sensor, 21 Macro Functions, 5 Button FPS/RTS Design

Specifications

Overview:

Maurus is the first person shooter mouse for the GX gaming series from Genius. You can customize it to reach explosive game performance to put yourself in a game winning position, because of the many features in this design of a professional FPS gaming mouse. Maurus has an over-clocking SCGi engine for a dpi range from 450 to 3500; so you will never lose precision targeting with the 450 dpi and you can use the faster speeds when necessary. The full speed process control unit uses onboard memory and gives gamers a 1-ms (8X quicker) response time, plus the braided cable with gold-plated USB connector provides a stable and smooth signal connection.

The OMROM switches have a life expectancy of eight million clicks, and they are very responsive so you can fire your weapon just like being in the game. Maurus also includes the Scorpion UI, so gamers can program their macro key to quickly use macros in the battle field. Scorpion UI also gives you access to button assignment, advance setting and the lighting system to rock the battle field. Power up now, Maurus is something a professional shooter looks forward to, it has the best design for a hand grip with a rubber coating finish and most of all, Maurus leads gamers alone to their winning goal.

Features:

- Professional 5-button FPS gaming mouse
- Over-clocking SCGi: dpi in 450/900/1800/3500
- Response within 1ms; 8-times quicker than others
- Scorpion gaming UI for shortcuts
- Metal weight to enhance hand grip and feeling
- Onboard memory to prevent game block
- 1.8 meter braided cable with gold-plated USB cable
- Rubber coating finished to receive total control

System Requirements:

- Windows® 7/Vista/XP
- Available USB Port
