Specifications

Overview:

HDMI and USB KVM Extender (120m) with IR
This KVM extender transmits HDMI signal up to 120 meters (with CAT6) over a single network cable, with max resolution supported up to 1080p. It allows access to a computer system from a remote USB console (USB keyboard, USB mouse, and monitor).

It is perfect for factory and construction sites, security control rooms, or any type of installation where the computer system needs to be in a conveniently accessible location.

- Extends local PC HDMI/keyboard/mouse to Remote side
- HDMI signal extended up to 120m (full distance requires CAT6 cabling)
- Support resolution up to 1920x1080
- Supports USB1.1 keyboard and mouse remote operation

- Supports IR cycle function
- Built-in ESD protection
