

# HL5340

HL5340D

## Product Overview

A4, 30ppm, 16Mb, HQ1200dpi, PCL6, Duplex Print, USB & Parallel Interface, Includes USB cable

## Specifications

### Overview:

#### Bringing a competitive edge to your office

The HL5340D has been designed to meet the printing demands of your corporate office. The high speed output of 28ppm is impressive by any standards and consistently provides outstanding performance. Thanks to a separate toner cartridge and drum, you can also be confident of lower running costs, without compromising on quality.

#### Standard features that make the difference

In the modern office, workgroups increasingly require a cross-platform printer. The HL5340D has been designed to be compatible across multiple platforms such as Windows, Macintosh, Linux, Unix and DOS. Brother provides, as standard, both Hi-Speed USB 2.0, Parallel and Ethernet ports enabling you to use your current systems without the need to upgrade. A 3 colour LED gives instant status recognition to avoid unnecessary printing delays.

#### Expandable features to cope with the demands of the future

Coping with increasing printing requirements from your workgroup is easy. The HL5340D comes with a 50 sheet multi-purpose tray and 250 sheet paper tray as standard. Add one or two optional paper trays, to increase your total paper capacity to 800 sheets. Memory is also fully upgradeable to 544MB, allowing your workgroup to comfortably cope with any changing circumstances without needing to replace your printer.

#### Printers designed with your business in mind

It is important to consider the benefits that duplex (two sided) printing will bring to the efficiency and performance of your office. This feature, which comes as standard on the HL5340D, saves you money by reducing running costs and paper requirements.

### Features:

- Up to 30 pages per minute print speed.
- Automatic duplex printing.
- 16MB standard memory expandable up to 528MB.
- PCL6 and BR-Script 3 emulation.

## ComX Computers

### Product Specification Sheet

- Up to 1,200 x 1,200 print resolution.
- Hi-Speed USB 2.0 and Parallel interface.
- 250 sheets standard paper capacity.
- 50 sheet multi-purpose tray.

| Multi Purpose Tray Media  |                                                                                                                                                                                              |
| Type                      | Plain paper, thick paper, bond paper, recycled paper, envelopes, labels, transparencies (up to 10 sheets)                                                                                    |
| Weights                   | 60 - 163g/m2                                                                                                                                                                                 |
| Sizes                     | Width (69.8 - 216mm) x Length (116 - 406.4)mm                                                                                                                                                |
| Optional Paper Tray Media |                                                                                                                                                                                              |
| Type                      | Thin paper, plain paper, bond paper, recycled paper                                                                                                                                          |
| Weights                   | 60 - 105g/m2                                                                                                                                                                                 |
| Sizes                     | A4, Letter, B5(ISO), A5, B6(ISO), Executive                                                                                                                                                  |
| Printer Driver            |                                                                                                                                                                                              |
| Windows                   | Windows Vista, Windows Server 2008 (32 & 64 bit editions), Windows XP Home Edition, Windows XP Professional (32 & 64 bit editions), Windows Server 2003 (32 & 64 bit editions), Windows 2000 |
| Macintosh                 | Macintosh Printer Driver for Mac OS X 10.3.9 or greater                                                                                                                                      |
| Linux                     | Linux printer driver for CUPS printing system (x86, x64 environment). Linux printer driver for LPD/LPRng printing system (x86, x64 environment)                                              |
| Printer Driver Features   |                                                                                                                                                                                              |
| N-up Printing             | Reduce up to 2, 4, 9, 16 or 25 A4 pages into just one A4 page                                                                                                                                |
| Poster Printing           | Enlarge 1 A4 page into a poster using 4, 9, 16 or 25 A4 pages                                                                                                                                |
| Watermark Printing        | Watermark your documents with predefined text or with your own user-defined messages                                                                                                         |
| Booklet Printing          | Print documents in A5 booklet format using manual duplex                                                                                                                                     |
| Printing Speed            |                                                                                                                                                                                              |
| Monochrome                | 30                                                                                                                                                                                           |
| Standard Paper Tray Media |                                                                                                                                                                                              |
| Type                      | Plain paper, bond paper, recycled paper, transparencies (up to 10 sheets)                                                                                                                    |
| Weights                   | 60 - 105g/m2                                                                                                                                                                                 |
| Sizes                     | A4, Letter, B5 (ISO), A5, A5(Long Edge), B6 (ISO), A6, Executive                                                                                                                             |
| Dimension (w x d x h)     |                                                                                                                                                                                              |
| With Carton               | 486 x 500 x 455                                                                                                                                                                              |
| Without Carton            | 371 x 384 x 246                                                                                                                                                                              |
| Ecology                   |                                                                                                                                                                                              |
| Power Save                | Allows the printer to consume less energy when not in use                                                                                                                                    |
| Toner Save                | Reduces the toner usage and helps to reduce the total cost of printer ownership                                                                                                              |
| Power Consumption         |                                                                                                                                                                                              |
| Sleep                     | 6                                                                                                                                                                                            |
