Product Overview

Erato Wireless Verse Black In-ear Earphone & Mic - iPX5 water and sweat proof, built-in MEMS mic with noise reduction, 5.8mm graphene driver, spinFit eartips with 360 degrees rotation, 4.5g ultra light weight, single-touch multifunction control button, 3Hr play time/ 4Hr talk time, 2x 60mAh battery + 800mAh charging case up to 15Hr on the go

Specifications

Features:

- True Wireless Stereo
- Innovative Graphene Driver
- SpinFit® Technology
- 3Hr Play Time
- 4Hr Talk Time
- IPX5 Sweat & Water Resistant
- Built In MEMS MIC

Tailored for your ear
After the successful launch of ERATO Apollo 7, ERATO now presents a new product - VERSE. Loaded with new graphene driver technology, VERSE provides uncompromised sound quality, richer and purer while still maintaining a light and compact bullet-shaped design. VERSE is also equipped with new SpinFit® eartips which rotate 360 degrees, making earbuds fully compliant with your ear shape. Listening to music becomes one of the most indulgent sensations you've ever experienced. The long battery life keeps music available on the go. With ERATO VERSE, you'll discover genuine audio satisfaction.

Ultra light
Each earbud weighs just 4.5g and embeds a MEMS microphone to reduce power consumption, increase sensitivity, improve noise reduction, and perform totally wire-free.

Powerful 5.8mm micro drivers
ERATO VERSE features a proprietary composite driver diaphragm specifically engineered to ensure authoritative bass performance that smoothly transitions up through the clearest of midrange regions and on to highs of amazing crystalline clarity and transparency.

Evolution in audio - graphene driver

Graphene enabled the development of a thin and flexible driver that can reproduce stronger, richer, and more accurate sound without extra weight or distortion. With advanced material technology, VERSE performs extraordinarily from deep bass to sparkling treble.

SpinFit® Silicon Eartips
Patented SpinFit® eartips with a specially-designed cushion at the center of the shank allow free 360degree rotation. They shape to your ear canal to go deeper and seal better. With superior noise isolation, they result in extended lows and finer highs as well as enhanced comfort.

IPX5 water and sweat proof
Thanks to VERSE's IPX5 sweat and waterproof rating, now you can enjoy your outdoor activities without hesitation, from rain to strenuous exercise.

Up to 15-hour battery life
Power on the go! The charging case holds up to 4 full recharges, totaling 15 hours of battery life. This is based on VERSE offering 3-hour of music and 4-hour of talk time per charge.

Easy single-touch multifunction
With a single button, auto power on/off, pairing, phone call pick up, music playback, track skip, volume control, and even Siri access are at your fingertip via simple clicking, holding, or double-clicking one button.
