Specifications

About this product

The Hisense HT Saturn 4.1.2 Channel Home Theatre System delivers immersive 720W Dolby Atmos DTSX sound with a wireless 6.5 inch subwoofer and seamless Bluetooth 5.3 streaming. Enjoy enhanced audio via HDMI eARC, optical input, room fitting tuning and multiple sound modes. Buy now from our website for powerful home cinema audio in South Africa.

Overview Summary

The Hisense HT Saturn 4.1.2 Channel Home Theatre System is a premium audio solution designed for cinematic surround sound at home. With Dolby Atmos and DTSX support, powerful 720W output, and a dedicated wireless 6.5 inch subwoofer, this system elevates movies, music and games with full spectrum audio performance.

Performance tier:Premium surround sound

Uses:Home theatre, movies, music playback, gaming, wireless audio streaming

Connectivity is flexible with Bluetooth 5.3, HDMI eARC and optical inputs, while room fitting tuning and multiple sound modes adapt the audio to your space. Experience deeper bass, clear vocals and immersive effects that bring entertainment to life in any living room or media space.

Description

The Hisense HT Saturn 4.1.2 Channel Home Theatre System is engineered to provide rich, multidimensional sound that fills the room with cinematic depth. Equipped with Dolby Atmos and DTSX audio decoding, this system pushes sound beyond traditional channels, creating lifelike effects that place you inside the action. The included wireless 6.5 inch subwoofer delivers punchy low frequencies without cable clutter, giving bass impact for movies and music alike.

Connecting your devices is simple, with Bluetooth 5.3 for seamless wireless streaming and HDMI eARC and optical inputs for high quality digital audio from TVs, consoles and media players. Room fitting tuning automatically optimizes sound characteristics to suit your space, while multiple sound modes let you tailor audio performance to your content genre. This combination of features makes the HT Saturn an ideal upgrade for living rooms, home theatres and entertainment setups.

Features

Powerful hardware and smart design deliver dynamic audio and flexible connectivity:

- 720W total power output for rich, room filling sound with clarity and impact.
- Dolby Atmos and DTSX surround decoding for immersive three dimensional audio.
- Wireless 6.5 inch subwoofer for deep, powerful bass without cable clutter.
- Bluetooth 5.3 for stable, high quality wireless streaming from phones and tablets.
- HDMI eARC and optical digital inputs for seamless TV and media device connection.
- Room fitting tuning adjusts audio to your space for optimal performance.
- Multiple sound modes let you customize audio for movies, music or games.
