

HU-JCH377

j5 create JCH377 USB type-C (5Gbps) -> 7x type-A (USB 3.1/3.0/2.0) Hub

Product Overview

j5 create JCH377 USB type-C (5Gbps) -> 7x type-A (USB 3.1/3.0/2.0) Hub, with 1 x 2.4Amps fast charge port, ideal for desktop or notebook/new macbook, 150x33x15mm + 900mm cable, aluminium housing, USB-powered, with AC-adaptor

Specifications

About this product

The j5create JCH377 USB Type-C 7-Port Hub is a versatile USB expansion solution that instantly adds seven USB Type-A ports to a USB Type-C enabled desktop, notebook, or compatible MacBook. Featuring USB 3.1 Gen 1 connectivity with data transfer speeds up to 5Gbps and a dedicated 2.4A fast charging port, it is ideal for connecting multiple peripherals while keeping compatible mobile devices charged. Buy now from our website for a reliable and convenient USB connectivity solution in South Africa.

Overview Summary

j5create JCH377 USB Type-C 7-Port USB Hub with Fast Charging

The j5create JCH377 is designed to expand the connectivity of modern USB Type-C computers by providing seven USB Type-A ports from a single USB Type-C connection. Supporting USB 3.1 Gen 1 transfer speeds of up to 5Gbps, it allows fast access to external storage, keyboards, mice, printers, cameras, and other USB devices.

ComX Computers

Product Specification Sheet

Its premium aluminium housing provides durability while maintaining a slim and lightweight design that complements modern desktops and notebooks. The integrated 900mm cable offers flexible positioning, and the included AC power adapter enables stable operation when multiple USB devices are connected. A dedicated 2.4A charging port allows compatible smartphones and tablets to charge faster than standard USB ports.

Performance tier:Mid-range USB Type-C expansion hub

Uses:USB expansion, desktop connectivity, notebook docking, MacBook accessories, external storage, keyboard and mouse connection, printer connection, charging compatible mobile devices

Overview

This USB-C(TM) 7-port Hub turns a single USB(TM) port into seven USB(TM) Type-A ports and features a compact design so you can easily fit it into your bag/case when travelling. It's perfect for connecting USB(TM) devices such as a mouse, keyboard, or flash drive whenever you need them. The JCH377 comes with an external power adapter to support power-hungry USB(TM) devices such as external hard drives and enclosures. With the power adapter, you can also charge your phone or tablet with the USB(TM) Type-A fast-charge port.

Description

The j5create JCH377 USB Type-C Hub provides a practical way to expand the connectivity of computers equipped with a USB Type-C port. Whether you need additional ports for external hard drives, flash drives, printers, keyboards, mice, webcams, or other USB peripherals, the hub offers seven USB Type-A connections from a single USB Type-C interface.

Supporting USB 3.1 Gen 1 technology with transfer speeds of up to 5Gbps, the hub is suitable for moving large files quickly while maintaining compatibility with USB 3.0 and USB 2.0 devices. The dedicated 2.4A charging port provides convenient charging for compatible smartphones and tablets without sacrificing valuable data ports.

The durable aluminium enclosure complements modern laptops and desktops while improving heat dissipation. Its integrated 900mm cable provides flexibility when positioning the hub on a desk, and the included AC power adapter helps provide reliable power when multiple high-power USB devices are connected simultaneously.

Features

The j5create JCH377 combines high-speed USB expansion with convenient charging in a compact aluminium design suitable for home, office, and professional environments.

- Expands one USB Type-C port into 7 x USB Type-A ports.
- Supports USB 3.1 Gen 1 data transfer speeds up to 5Gbps.
- Backward compatible with USB 3.0 and USB 2.0 devices.
- Dedicated 2.4A fast charging port for compatible mobile devices.
- Premium aluminium housing for durability and heat dissipation.
- USB-powered operation with included AC adapter for additional power.
- Integrated 900mm USB Type-C cable.
- Ideal for desktops, notebooks, and compatible MacBook models.
- Compact footprint for clean desk organisation.

System Requirements

- Microsoft Windows(RegTM) 10
- macOS 10.11 and later
- Linux
- Chrome OS
- Available USB-C(TM) port (USB-C(TM) 3.1 is recommended)

What's in the Box

- j5create JCH377 USB Type-C 7-Port USB Hub
- AC power adapter
- User documentation

Specifications

Hardware	
Host Connector	USB-C Male
Ports	6 - USB Type-A
	1 - USB Type-A fast charging port
Power Source	Bus-powered or self-powered
USB Pass-through	Yes
Performance	
Fast Charging	Up to 2.4A
Max Data Transfer Rate	5 Gbps
Power	
Input Current	Up to 0.8A
Input Voltage	100 - 240V
Output Current	4A
Output Voltage	5V
Power Consumption	>= 500 mA
Power Delivery	No
Physical Specifications	
Cable Length	3 ft (914.4 mm)
Color	Champagne Metallic
Enclosure Type	Aluminum
Operating Humidity	< 85% non-condensing
Operating Temperature	32 to 104degreesF (0 to 40degreesC)
Product Depth	0.58 in. (14.8 mm)
Product Height	5.91 in. (150 mm)
Product Weight	5.89 oz (167g)
Product Width	1.29 in. (32.8 mm)
Storage Humidity	< 85% non-condensing
Storage Temperature	14 to 149degreesF (-10 to 65degreesC)

FAQ

What can I connect to the j5create JCH377 USB hub?

You can connect USB flash drives, external hard drives, keyboards, mice, printers, webcams, card readers and many other

ComX Computers

Product Specification Sheet

USB peripherals using the available USB Type-A ports.

Does the hub support high-speed USB transfers?

Yes. The hub supports USB 3.1 Gen 1 data transfer speeds of up to 5Gbps when used with compatible devices and cables.

Can the charging port charge smartphones and tablets?

Yes. The dedicated USB charging port provides up to 2.4A for charging compatible mobile devices.

Is the hub compatible with MacBook computers?

Yes. The JCH377 is designed for USB Type-C enabled notebooks, desktops and compatible MacBook systems.

Why is an AC adapter included?

The included AC adapter provides additional power for reliable operation when multiple USB peripherals or higher power devices are connected at the same time.
