

HUB013

Microworld USB-C to USB 4 port Hub

Product Overview

Microworld HUB013 USB-C to USB 4 port Hub, 4x USB 2.0 Ports, 480 Mbps Data Speed transfer Speed, ABS housing material

Specifications

Overview Summary:

Expand your connectivity instantly with the Microworld HUB013 USB-C to USB 4 Port Hub. Designed for convenience and reliability, this compact hub lets you connect up to four USB devices at once, making it ideal for laptops, desktops, and mobile setups. With stable 480Mbps data transfer speeds and durable ABS construction, it's a practical solution for everyday use at home, work, or on the go. Compatible with Windows, iOS, and Linux systems, it ensures seamless integration across your devices.

Whether you need to plug in peripherals, transfer files, or simplify your workspace, this USB hub delivers dependable performance in a portable design. Shop now and upgrade your device's connectivity with a simple, effective solution built for modern users in South Africa.

Performance tier:Entry-level

Uses:connecting peripherals, expanding USB ports, file transfers, office setups, home workstation connectivity

Overview:

Compact USB-C Hub for Everyday Connectivity

The Microworld HUB013 USB-C to USB hub is a straightforward solution for expanding limited ports on modern devices. Designed for convenience, it converts a single USB-C connection into four USB 2.0 ports, making it easy to connect multiple peripherals at once. Whether you are working from a laptop, tablet, or compatible desktop system, this compact hub helps streamline your workspace without unnecessary complexity.

Description:

This USB-C hub offers a practical way to connect multiple USB devices such as keyboards, mice, flash drives, and printers

ComX Computers

Product Specification Sheet

through a single port. With stable 480 Mbps data transfer speeds, it supports everyday computing tasks efficiently. The durable ABS housing ensures long-term usability while maintaining a lightweight and portable design. Compatible across major operating systems, it is suitable for both home and office environments.

Features:

Designed for Simplicity and Port Expansion

Modern laptops often sacrifice port availability for slim designs, and this is where the HUB013 becomes useful. It allows you to connect up to four USB devices simultaneously without needing multiple adapters. Setup is immediate with plug-and-play support, eliminating the need for drivers or software installation.

Performance and Compatibility

The hub operates on USB 2.0 technology, delivering reliable data transfer speeds suitable for standard peripherals and storage devices. It works across widely used platforms, ensuring flexibility regardless of your setup.

Key technical details include:

- Part number HUB013 integrated into product identification and packaging
- Four USB 2.0 ports for multi-device connectivity
- Data transfer speeds up to 480 Mbps
- USB-C interface for modern device compatibility
- Broad system support including Windows, iOS, and Linux

Durable Build with Portable Design

Constructed with ABS housing, the Microworld HUB013 is built to handle daily use while remaining lightweight enough for travel. Its compact size makes it easy to carry in a laptop bag or pocket, ensuring you always have additional ports available when needed.

Ideal Use Cases

This hub is suited for users who need to connect multiple USB devices without investing in complex docking stations. It works well in office setups, remote work environments, and mobile productivity scenarios where space and simplicity matter.
