IronKey D300 128GB Managed Encrypted USB 3.0 FIPS Level 3 Flash Drive

Product Overview

IronKey D300 128GB Managed Encrypted USB 3.0 FIPS Level 3 Flash Drive

Specifications

Overview:

IronKey D300 is available in a Managed model that requires IronKey EMS by DataLocker3 and allows central management of drive access and usage across thousands of drives. Either cloud-based or on-premises, it enforces drive-specific policies, such as password strength and retry limits, and lets administrators remotely disable lost or stolen drives, recover lost passwords and more.

Rugged and secure, IronKey D300 has a zinc casing and tamper-evident epoxy seal for physical security, so you can rest assured the drive will hold up, even in the most demanding situations. It's customizable, easy to use and waterproof up to 4 feet, conforming to IEC60529 IXP82. SuperSpeed (USB 3.0) technology means you don't have to compromise speed for security; IronKey D300 allows for fast data transfers, and by adding Kingston's expertise in Flash memory and the latest in NAND Flash and controller technology, you can be confident in a solution that will be around for years to come.
