

IM360 ARGB

Antec Infinity Matrix PWM 360mm ARGB Case fan single Frame - Black

Product Overview

Antec Infinity Matrix PWM 360mm ARGB Case fan single Frame - Black, Fan size is 360 mm, Maximum Speed reaches 1800 rpm, Airflow provides up to 134.43 CFM, Maximum noise Level is 32.8 dB, Connector Type is 4 pin PWM, RGB Lighting is included

Specifications

Overview Summary:

Upgrade your computer's cooling performance with the Antec INFINITY MATRIX PWM 360mm ARGB Case Fan, now available for purchase in South Africa. This single-frame design delivers an impressive 134.43 CFM airflow while maintaining whisper-quiet operation at just 32.8 dB, making it perfect for gamers and professionals who demand silence without sacrificing power. With precise PWM control and vibrant ARGB lighting, you can customize your build's look and performance effortlessly.

Designed to handle the demands of modern hardware, this fan ensures your components stay cool under heavy loads thanks to its 1800 RPM speed and superior static pressure. The sleek black finish complements any chassis style while the integrated ARGB lighting adds a premium touch to your setup. Secure yours today by buying now to experience reliable cooling technology that balances aesthetics with functionality.

Performance tier:High-End Cooling

Uses:PC case cooling, gaming rigs, workstations, silent computing environments, RGB lighting customization

Overview:

The Antec INFINITY MATRIX PWM 360mm ARGB Case Fan Single Frame in Black (Part Number: IM360 ARGB) is engineered for PC builders who demand high-performance cooling without sacrificing aesthetics. This single-frame design delivers a robust airflow of up to 134.43 CFM, ensuring your components stay cool even under heavy loads while maintaining a sleek appearance through any case window.

Description:

This premium 360mm fan combines powerful cooling capabilities with customizable ARGB lighting and precise speed control via the included 4-pin PWM connector. Ideal for enthusiasts looking to upgrade their thermal management, it offers exceptional static pressure of 1.48 mmH₂O to push air through dense radiators or filters effortlessly.

Features:

Serious Airflow for Your Build

Cooling is the backbone of any stable system, and this unit provides a solid foundation for effective thermal management. Whether you are assembling a brand new rig or refreshing an existing one, the 360mm frame ensures efficient heat dissipation to keep your hardware running at optimal temperatures.

Tired of Noisy Fans Ruining Your Focus?

A powerful fan is only useful if it does not become a distraction. The Infinity Matrix achieves speeds up to 1800 RPM while keeping the maximum noise level down to just 32.8 dB, allowing you to game or work without a constant drone disturbing your focus.

PWM Control That Adapts to Your Workload

The integrated 4-pin PWM connector allows for intelligent speed management directly from your motherboard. This ensures the fan remains quiet during everyday tasks and automatically ramps up when demanding workloads generate excess heat, balancing performance with silence perfectly.

ARGB Lighting with a Single-Frame Design

Add a distinctive look to your system with vibrant ARGB lighting that blends seamlessly with the black finish. The single-frame format keeps the 360mm unit as one clean, unified piece, making it an attractive addition to any build viewed through a

Specifications	
Product Code	IM360 ARGB
Fan Size	360 mm
Max Speed	1800 RPM
Airflow	134.43 CFM
Static Pressure	1.48 mmH2O
Max Noise Level	32.8 dB
Connector	4-pin PWM
RGB Lighting	Yes
Colour	Black
Product Dimensions	36.4 x 12.4 x 2.8 cm

FAQ

What is the maximum noise level of this fan at full speed?

The Antec INFINITY MATRIX PWM operates quietly with a maximum noise level of just 32.8 dB even when running at its top speed of 1800 RPM, making it suitable for gaming or working without constant drone.

How does the fan control system work and what connector is required?

This case fan features a 4-pin PWM connector that allows you to manage fan speed directly from your motherboard, enabling you to balance cooling performance with noise levels based on your current workload.

Is this fan suitable for pushing air through radiators or dense filters?

Yes, the Infinity Matrix delivers a static pressure of 1.48 mmH2 O, which provides enough force to push air effectively through the resistance found in typical PC cases and cooling setups.

ComX Computers

Product Specification Sheet

Does this product include multiple fans for a larger radiator setup?

No, this package contains one single-frame 360mm fan unit designed as a clean, unified look rather than a multi-fan bundle or individual smaller units.

What color finish does the Antec INFINITY MATRIX feature and how does it fit different builds?

The fan comes in a Black finish that is designed to blend neatly into a wide range of PC case styles while featuring built-in ARGB lighting for adding distinct color and character to your build.
