INS-PSA-USB+C

Selectrix Dual-Port Wall charger 20W fast charging + Type-C

Product Overview

Selectrix Dual-Port Wall charger 20W fast charging + Type-C, 20W USB-C PD3.0 fast charging Port, 18W Quick Charge 3.0 USB Type-A Port, Simultaneous dual-device charging capability, Combined Power Output of 17W Max

Specifications

Overview Summary:

Looking for a reliable and fast way to power up your devices This Unbranded Dual-Port Wall Charger is the perfect solution for South African households, offices, and travelers alike. With a powerful 20W USB-C port supporting PD3.0 and an additional USB-A port with QC3.0 technology, you can charge two devices simultaneously without compromising speed.

This compact charger allows you to power up your smartphone to 50% in just 30 minutes, making it ideal for busy mornings or quick top-ups on the go. Its smart output management and built-in overheating protection ensure safety for all your gadgets while its lightweight design makes it a hassle-free companion for any trip.

Upgrade your charging setup today with this efficient dual-port adapter designed for universal compatibility. Buy now to experience seamless, fast charging for your smartphones, tablets, and other USB-powered devices right here in South Africa.

Performance tier: High Efficiency

Uses: Home charging, Office power supply, Travel adapter, Simultaneous device charging, Quick top-ups

Overview:

Elevate your daily charging routine with the Unbranded Dual-Port Wall Charger featuring a powerful 20W output and integrated Type C connectivity. This compact adapter is engineered to deliver super fast charging capabilities, allowing compatible devices to reach up to 50% battery life in just thirty minutes. Whether you are managing multiple devices on a busy workday or need reliable power while traveling, this unit ensures your smartphones and tablets stay powered without the hassle of searching for separate adapters.

Description:

The INS-PSA-USB+C model offers a seamless charging experience by combining high-speed Power Delivery 3.0 via USB-C with Quick Charge 3.0 support on the USB-A port. Its intelligent output management allows users to charge two devices simultaneously without compromising speed, making it an ideal solution for modern households and travelers who carry both phones and tablets. The sturdy construction includes built-in safeguards against overheating, ensuring long-lasting performance in a lightweight form factor available with either European or US plug configurations.

This versatile power adapter is designed to handle the demands of various USB-powered devices with precision and safety. It supports universal compatibility across smartphones and tablets, delivering optimized voltage and current for each connected gadget. The smart output technology automatically adjusts to provide the maximum safe charge rate, while the compact design fits easily into bags or pockets without taking up valuable space.

Features:

Technical Specifications:

- Dual Ports: USB-C (20W PD3.0) + USB-A (QC3.0) for simultaneous charging
- USB-C Output: 5V/3A, 9V/2.22A, 12V/1.67A with a maximum of 20W
- USB-A Output: 5V/3A, 9V/2A, 12V/1.5A with a maximum of 18W
- Combined Output: 5V/3.4A (17W max) when both ports are active
- Safety Built-in overheating protection and robust internal design

The Part Number INS-PSA-USB+C identifies this specific configuration, ensuring you receive the correct plug style for your region. It is perfect for fast charging your phone before heading out or keeping multiple devices powered during long trips. The reliable everyday performance makes it a staple for use at home, in the office, or while traveling.

What's in the box

- 1 x Dual-Port Wall Charger (20W Fast Charging + Type C)

FAQ

Can this charger charge two devices simultaneously?
Yes, the INS-PSA-USB+C dual-port wall charger features both USB-C and USB-A ports that allow for simultaneous charging. When using both ports together, the combined output is limited to 17W max (5V/3.4A), whereas the individual ports support up to 20W via USB-C PD3.0 or 18W via USB-A QC3.0.

How fast can this charger charge my phone?
This charger delivers super fast charging capabilities, allowing compatible devices to reach up to 50% battery in just 30 minutes using the 20W PD3.0 USB-C port or the QC3.0 USB-A port.

Is this charger compatible with my specific device/
The charger offers universal compatibility and works with smartphones, tablets, and other USB-powered devices. It is designed to be travel-friendly and comes in both European and US plug styles to suit different regions.

What safety features are included with this 20W wall charger?

To ensure long-lasting performance, the unit includes built-in overheating protection and a sturdy design. The smart output system automatically manages power delivery to keep your devices safe during charging.

Is this product suitable for travel or everyday use?
Yes, it is perfect for fast charging before heading out or keeping multiple devices powered on trips. Its lightweight and compact design makes it ideal for reliable everyday use at home, the office, or while traveling.
