

INS-WBL-S-EL

Unbranded L-shape Wall Bracket 400 x 200 x 38mm & Electroplated

Product Overview

Unbranded L-shape Wall Bracket 400 x 200 x 38mm & Electroplated

Specifications

Overview Summary:

The Unbranded L-Shape Wall Bracket 400x200x38mm is a durable mounting solution designed for securely attaching antenna masts, CCTV poles, and outdoor networking equipment to walls. Manufactured from electroplated steel, this bracket offers a rigid structure with added resistance to rust and outdoor wear, making it suitable for residential and commercial installations.

Ideal for WISP deployments, surveillance systems, and external gateway mounting, this compact wall bracket delivers reliable support for outdoor equipment installations. Buy now and shop now for a dependable mounting bracket suitable for networking and security applications across South Africa.

Performance tier:Entry-Level Professional

Uses:Mounting antenna masts, CCTV pole installation, outdoor network equipment mounting, WISP antenna support, external wall installations

Overview:

Electroplated L-Shape Wall Bracket for Outdoor Mounting Applications

The Unbranded L-shape Wall Bracket 400 x 200 x 38mm is designed for secure wall-mounted installations where strength, stability, and corrosion resistance are important. Built from electroplated steel, this compact mounting bracket provides a rigid support structure for antenna masts, CCTV poles, cameras, and various outdoor networking devices.

Its durable electroplated finish helps resist rust and environmental wear, making it suitable for external installations in residential, commercial, and wireless networking environments. The 400mm arm length offers dependable clearance from walls while maintaining a stable mounting position for outdoor equipment.

Description:

ComX Computers

Product Specification Sheet

This electroplated L-shape wall bracket offers a practical mounting solution for WISP antennas, CCTV systems, outdoor wireless equipment, and lightweight mast installations. Its reinforced steel construction provides dependable support while the corrosion-resistant finish improves long-term outdoor durability. The compact design allows for clean installations on external walls without excessive bulk, making it suitable for networking professionals, installers, and surveillance system deployments.

Features:

Built for Reliable Outdoor Equipment Mounting

Whether used for wireless internet installations, security camera setups, or antenna support, this wall bracket provides a sturdy and dependable mounting platform. The rigid L-shape design improves structural stability while helping maintain accurate positioning for mounted equipment.

Suitable applications include:

- WISP antenna installations
- CCTV camera and pole mounting
- Outdoor networking equipment
- Lightweight mast support systems
- External wall-mounted gateway installations

Technical Details

- Product type: L-shape wall bracket
- Material: Electroplated steel
- Finish: Electroplated corrosion-resistant coating
- Dimensions: 400 x 200 x 38mm
- Installation type: Wall mount
- Suitable for: Antenna masts, CCTV poles, outdoor wireless equipment

Compact and Durable Steel Construction

The electroplated steel design helps provide improved durability in outdoor environments where exposure to moisture and weather conditions can affect standard steel brackets. Its compact profile makes it suitable for installations where space efficiency and neat cable routing are important.

Part Number / SKU: INS-WBL-S-EL

Suitable for Networking and Security Installations

This wall bracket is commonly used in wireless networking deployments and surveillance projects requiring a reliable wall-mounted support arm. Its practical dimensions allow installers to position equipment securely while maintaining sufficient spacing from mounting surfaces.

Please note that this bracket features an electroplated finish.
