KeyChron K10 QMK Full-size RGB Wireless custom Mechanical Keyboard V.2 (Super Red Switch) - Black

Product Overview

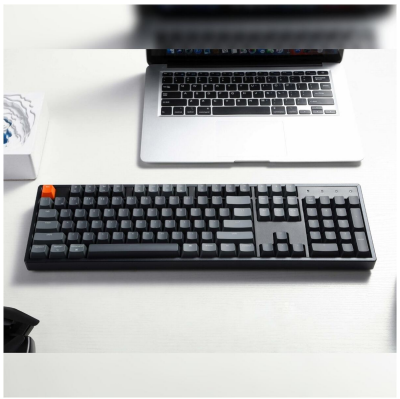

KeyChron K10 QMK Full-size RGB Wireless custom Mechanical Keyboard V.2 (Super Red Switch) - Black, 104 Keys, KeyChron Super Mechanical Switches, North-facing Switch face, Plate-mounted stabilizers, 12 Multimedia Keys, N-Key rollover (NKRO), 22 types of RGB backlight options, 4000mAh Rechargeable Li-Polymer Battery, Around 190 hours BT working time (Backlit off), Bluetooth and Type-C cable connection

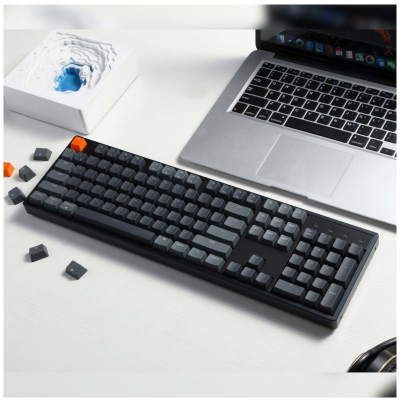

Specifications

Overview Summary:

The Keychron K10 QMK V2 is a premium full-size wireless mechanical keyboard designed for productivity, gaming, and creativity. Featuring smooth Super Red switches, customisable RGB lighting, and full QMK/VIA programmability, it delivers a precise and comfortable typing experience. With dual Bluetooth and Type-C connectivity, you can effortlessly switch between devices, making it ideal for both home and office use. Its 4000mAh battery ensures hours of uninterrupted performance. Shop now and upgrade your workspace with the perfect balance of style, durability, and functionality.

Performance tier: Premium

Uses: Gaming, professional typing, programming, creative work, home office setups

Overview:

Keychron K10 QMK Version 2 Full-Size RGB Wireless Mechanical Keyboard (Super Red Switch) - Black
The Keychron K10 QMK V2 delivers a premium typing experience built for productivity, gaming, and everyday performance. With a full-size 104-key layout, advanced QMK/VIA customisation, and both wireless and wired connectivity, this keyboard offers precision, flexibility, and endurance for users who demand more from their setup.

Description:

The Keychron K10 QMK V2 combines advanced mechanical performance with modern design. It features Keychron Super Red switches for smooth keystrokes, 22 RGB lighting modes for personalised aesthetics, and a long-lasting 4000mAh battery providing up to 190 hours of wireless use. Compatible with macOS, Windows, and Linux, this keyboard is ideal for professionals, gamers, and creators seeking reliability, comfort, and customisation in one device.

Features:

Customisable Full-Size Layout for Maximum Productivity
Enjoy the efficiency of a 100% full-size keyboard with all 104 programmable keys at your fingertips. With full QMK/VIA support, users can remap keys, program macros, and design custom layers tailored to any workflow. Whether you're coding, designing, or gaming, the K10 adapts seamlessly to your needs.

Responsive and Durable Keychron Super Mechanical Switches
Experience tactile satisfaction with Keychron's Super Red mechanical switches, offering smooth actuation and lasting reliability. Double-shot PBT keycaps ensure durability and resistance to shine, while the north-facing switch layout enhances

compatibility with popular keycap sets.

Vibrant RGB Lighting for Personal Expression
Transform your setup with 22 RGB lighting effects that can be customised to match your environment or mood. The adjustable brightness levels and dynamic lighting patterns add personality to your workspace or gaming rig.

Flexible Connectivity Options
Switch easily between Bluetooth 5.2 for wireless freedom and Type-C cable for a stable wired experience. Pair up to three devices and toggle between them effortlessly. The K10 QMK ensures reliable performance whether connected to a laptop, PC, or tablet.

Long Battery Life for Uninterrupted Performance
Powered by a 4000mAh rechargeable Li-Polymer battery, this keyboard offers up to 190 hours of use with the backlight off or around 100 hours on the lowest RGB brightness setting. Perfect for long sessions without frequent recharging.

Comfort-Focused and Built to Last
Typing comfort is enhanced with adjustable typing angles of 3.5degrees, 7.7degrees, and 11degrees, reducing wrist strain during extended use. The ABS frame provides a solid, durable structure, while plate-mounted stabilisers minimise key wobble for a smoother typing experience.

Technical Details

- Layout: 100% full-size (104 keys)
- Switch Type: Keychron Super Mechanical (Hot-swappable Super Red switches)
- Switch Face: North-facing
- Stabilizers: Plate-mounted
- Keycap Material: Double-shot PBT, Cherry profile
- MCU: ARM Cortex-M3 32-bit WB32F3G71 (256KB Flash)
- Polling Rate: 1000Hz
- N-Key Rollover: Supported in both wired and wireless modes
- RGB Lighting: 22 modes with adjustable brightness
- Battery: 4000mAh rechargeable Li-Polymer
- Bluetooth Version: 5.2
- Connectivity: Bluetooth and USB Type-C
- Compatible Systems: macOS, Windows, Linux
- Typing Angles: 3.5degrees, 7.7degrees, 11degrees
- Dimensions: 43.5 x 12.4 x 3.1 cm
- Weight: 990 +/-10g

Included in the Box

- Keychron K10 QMK Full-size RGB Wireless Mechanical Keyboard V2 (Super Red Switch) - Black
- USB Type-A to Type-C Cable
- Keycap and Switch Puller
- Screwdriver

Why Choose Keychron
Keychron stands at the forefront of mechanical keyboard innovation, blending modern aesthetics with open-source versatility. Known for their build quality, ergonomic design, and customisation potential, Keychron keyboards are trusted by professionals and enthusiasts worldwide. The K10 QMK V2 continues this legacy-combining precision engineering, wireless convenience, and long-term durability for the ultimate typing experience.
