KAS-CAV14-D2

Kaspersky Anti Virus 2014, Single user, DVD Case, 1 year subscription

Product Overview

Kaspersky Anti Virus 2014, Single user, DVD Case, 1 year subscription

Specifications

Overview:

Kaspersky anti virus 2014 1 user 1 year retail dvd box
Kaspersky anti-virus 2014 is the backbone of your pc's internet security system, delivering essential, real-time protection from the latest malware. It works behind- the-scenes with intelligent scanning and small, frequent updates, while proactively protecting you from known and emerging internet threats. Enjoy essential protection that won't slow down your pc with kaspersky anti-virus 2014.

What the new kav/kis 2014 delivers

- Better overall protection
Kaspersky lab is continuously working on developing new technologies to stay ahead of cybercriminals. For kav/kis 2014, those include zeta shield, trusted applications mode, and anti-blocker for an instant protection from the latest, sophisticated threats.
- Financial protection
Improved safe money technology ensures the security of financial transactions via online banks, payment systems such as paypal and e-stores.
- Better performance
Kav/kis 2014 has been optimized to ensure maximum speed of product operation and minimal impact on most user scenarios with particular attention paid to windows 8.
- Better usability
Kav/kis 2014 has been optimized for usability, particularly around easier installations, settings usage, and parental control set up.

Features:

Real-time protection against computer viruses, spyware, trojans, rootkits, and more
Kaspersky anti-virus 2014 is the backbone of your pc's internet security system, packed with the latest kaspersky lab technologies from our team of world-class security experts and engineers. It works behind-the-scenes with intelligent scanning

and small, frequent updates, while delivering real-time, cloud-enabled protection from the latest threats, and proactive protection from unknown dangers. It's essential protection that won't slow you down.

Ensures vulnerabilities won't compromise your pc with automatic exploit prevention
One of the easier ways for cybercriminals to find holes in users' protection is through application and system vulnerabilities that haven't been updated with the latest fixes. For example, such popular programs as adobe reader, internet explorer, and firefox, can offer an easy gateway for malicious programs. Kaspersky anti-virus 2014 goes beyond simply scanning for vulnerabilities to include now analyzing and controlling the actions of programs and applications with vulnerabilities, so they can't cause any harm.

Website and email scanning to detect malicious software
Kaspersky anti-virus 2014 provides superior protection from suspicious or malicious websites, checking all web pages for the presence of malicious code. It also scans incoming and outgoing email messages and blocks harmful content - all without slowing you down.

Fast and efficient pc performance
Fully enjoy your pc and the internet without being dragged down by your internet security software. Small, smart updates and intelligent scanning operate behind-the-scenes while delivering maximum pc performance. Plus, our special gamer mode ensures an uninterrupted gaming experience, while still keeping you secure.
Rapid reaction to new and emerging threats
New internet threats emerge with amazing speed, and the latest kaspersky technologies are there to protect you with real-time data from the cloud. Plus, you're linked to millions of participating kaspersky security network users around the world. When suspicious or unrecognizable data is encountered on those systems, it's automatically analyzed by our lab, and real-time, protective updates are issued to all of our users, giving you the ultimate protection as new threats emerge.

Instant safety checks on files, applications and websites
The internet security status and reputation of files and websites is now at your fingertips. With a single mouse-click, file advisor uses cloud-based technologies to check the safety of any file you'd like to access. And, our url advisor adds color-coded tags to all web links to advise you of the danger level of the link and subsequent pages. Search the web with confidence that you won't stumble onto any dangerous websites.

Rollback of harmful malware activity
Kaspersky's multiple layers of protection are your best defense against cybercrime, delivering premium protection from new and emerging threats. And if an unknown piece of malware does manage to find its way onto your computer system, kaspersky's unique system watcher will detect the dangerous behavior and allow you to undo most unwanted and harmful activity. ss

Specifications	
Product Code	KAS-CAV14-D2
General	
Category	Security applications
Localisation	United Kingdom
Subcategory	Security - desktop antivirus, security - adware & malware removal tools
Language(s)	English

Software	
Package Type	Retail
Licence Validation Period	1 year
Licence Qty	1 PC
Platform	Windows
Licence Pricing	Standard
Licence Type	Subscription package
System Requirements	
OS Required	Microsoft Windows 7 Starter, Microsoft Windows 7 Home Premium (32 / 64 bits), Microsoft Windows XP Professional SP3 or later, Microsoft Windows XP Home Edition SP3 or later, Microsoft Windows 7 Professional (32 / 64 bits), Microsoft Windows 7 Ultimate (32 / 64 bits), Microsoft Windows 7 Home Basic (32 / 64 bits), Microsoft Windows XP Professional x64 Edition SP3 or later, Microsoft Windows Vista Business (32 / 64 bits) SP1, Microsoft Windows Vista Home Premium (32 / 64 bits) SP1, Microsoft Windows Vista Home Basic (32 / 64 bits) SP1, Microsoft Windows Vista Ultimate (32 / 64 bits) SP1, Windows 8 (32 / 64 bits), Windows 8 Enterprise (32 / 64 bits), Windows 8 Pro (32 / 64 bits), Microsoft Windows Vista Enterprise (32 / 64 bits) SP1
Peripheral / Interface Devices	Mouse or compatible device, CD-ROM, Internet connection
System Requirements Details	Microsoft Windows Vista / 7 / 8 - 1 GHz - RAM 1 GB - HD 480 MB
	Microsoft Windows Vista / 7 / 8 (64-bit versions) - 1 GHz - RAM 2 GB - HD 480 MB
	Microsoft Windows XP (32 / 64 bits) - 800 MHz - RAM 512 MB - HD 480 MB
Software Requirements	Microsoft .NET Framework 4.0, Internet Explorer 8.0 or later, Microsoft Windows Installer 3.0 or later
Service & Support	
Service & Support	New releases update
Service & Support Details	New releases update - 1 year
	Virus definitions update - 1 year
	Phone consulting - 1 year - availability: business hours
	E-mail consulting - 1 year - availability: business hours
	Web knowledge base access - 1 year - availability: 24 hours a day / Monday-Sunday
