Kaspersky Small Office Security

Product Overview

Kaspersky Small Office Security - Protects 1 Server & 5 Workstations

Specifications

Overview:

The Kaspersky Small Office Security 2 for File Server & Workstations Software KAS-CSOS2-FS-D5USR is exclusively designed for small businesses offering world-class protection. The Software delivers highly affordable world-class PC and server protection that is fast, simple and easy to install, configure and use. From a single PC you can manage your entire business network security, perform all the tasks needed to secure all important and confidential information and keep your business reputation safe, without leaving your desk or impacting your PC's performance. The advanced solution provides everything you need to guard your business against any IT threats. Take care of your business and let Kaspersky Small Office Security take care of your network's protection.

Features:

- Real-time protection against viruses, spyware, Trojans and more.
- Centralized network security management from one PC.
- Limits employee access to websites, applications, games and social networking.
- Fully protects your business data with scheduled, automatic backups.
- Stores data in encrypted vaults that can be safely transferred via email or USB drive.
- Generates and securely stores hard-to-crack passwords for you and your employees.
- Ensures maximum system performance with frequent updates and unobtrusive operation.
- Easy-to-manage for improved network security.
- Advanced technologies block hacker attacks instantly.
- Provides tools to tune up your business' IT network security, including WiFi.
- A File Shredder utility deletes sensitive data so it can't be recovered or stolen.
- Excellent technical support direct from Kaspersky Lab and approved partners.
