Specifications

Overview:

Protection while you work

Kaspersky Small Office Security is designed for businesses running 5-50 computers, some servers and mobile devices. It works out-of-the-box and is managed from one easy-to-use cloud-based console - no IT skills are needed to use our powerful security tools and monitor security from any connected device you choose.

We protect you from online attacks, ransomware and data loss. You get on with business.

Supported platforms:

- Windows desktops and laptops
- Mac desktops and laptops
- Windows-based file servers
- Android smartphones and tablets

Features:

EASY AND FAST SET UP
Out of the box simplicity combined with extended functionality and control. The cloud-based console makes remote management and monitoring easy. A single web page displays the security status of all your devices, enables you to activate security on any device and have easy access to Kaspersky Technical Support.

SO FEATURE RICH
Be secure, no matter which devices you use. Award-winning anti-malware protects your PCs, Macs, file servers and mobile devices from all types of cyber threats. Protect your business and customer data and improve productivity with powerful web control, anti-phishing, anti-spam, anti-ransomware, backup and encryption.

MOST TESTED, MOST AWARDED

No other vendor can match Kaspersky Lab's success record in independent tests . We take care of your security while you take care of the business. By combining real-time, cloud-assisted technologies to secure your mobile devices, file servers and PCs, Kaspersky Small Office Security protects your business against the very latest threats.
