Product Overview

Kaspersky Plus Internet Security 1 year License - 5 Devices. OS: Windows macOS Android iOS; Features: Antivirus, Firewall, Unlimited VPN, Password Manager, Performance Tools.

Specifications

About this product

Kaspersky Plus Internet Security - 1-year licence for up to 5 devices. Provides comprehensive protection with antivirus, anti-malware, firewall, unlimited VPN and password manager, plus performance-boosting tools for Windows, macOS, Android and iOS.

Overview Summary

Kaspersky Plus Internet Security - 1 Year (5 Devices)

This licence enables security for up to five devices across different platforms, offering multi-layered defence that includes real-time antivirus, anti-malware, anti-phishing, and firewall protection. It also protects against ransomware and network-based threats.

Privacy and performance features are central: you get an unlimited VPN for secure and private browsing, a powerful password manager to store your credentials, and system optimisation tools like HDD health monitoring to keep your devices running smoothly.

Performance tier: Premium / Advanced

Uses: Multi-device home protection, Secure online banking, Private browsing, System performance optimisation, Cross-platform security

Description

Kaspersky Plus Internet Security 1-year licence covers up to five devices, giving you comprehensive cyber-protection with a modern, layered security architecture. Its engine defends against a broad range of threats, from standard malware and viruses to more advanced network-based intrusions and ransomware.

Beyond protection, Kaspersky Plus emphasises privacy and usability: its unlimited VPN encrypts your internet traffic, while a

built-in password manager securely stores and auto-fills your credentials. Performance tools, including hard disk health monitoring and system cleanup, reduce slowdown, and a "do not disturb" mode helps minimise interruptions during full-screen activities.

Features

- Real-Time Antivirus: Protects continuously from malware, trojans, worms and other common threats.
- Anti-Malware: Defends against adware, keyloggers, rootkits, phishing and other sophisticated threats.
- Firewall & Anti-Hacking: Monitors and blocks suspicious network activity and unauthorised access.
- Unlimited VPN: Encrypts all your internet traffic so you can browse securely from any network.
- Password Manager: Stores, generates and auto-fills passwords across your devices.
- Disk Health Monitoring: Tracks the condition of your hard drive to preempt failures or data loss.
- Performance Optimization: Removes junk, manages background apps and improves system responsiveness.
- Do-Not-Disturb Mode: Pauses alerts during gaming, presentations or full-screen use.
- Anti-Phishing Protection: Guards against phishing websites and credential-stealing attempts.
- Data Leak Checker: Alerts you if your personal data appears in known breaches (feature in Plus plan).
