Specifications

About this product

Kaspersky Plus Internet Security provides advanced multi-layered protection for 1 device. It includes real-time antivirus, anti-malware, firewall, online payment protection, unlimited VPN, and performance optimisation for Windows, macOS, Android, and iOS devices.

Overview Summary

Kaspersky Plus Internet Security 1 Year License - 1 Device

Protect your device against viruses, malware, ransomware, and phishing attacks with Kaspersky Plus. This plan provides real-time antivirus, anti-hacking, and firewall tools, along with online payment protection and unlimited VPN for safe browsing. Performance optimisation ensures your device runs smoothly while background protection continues uninterrupted.

Privacy tools block unwanted tracking, stop unauthorized webcam and microphone access, and filter malicious ads. Compatible with Windows, macOS, Android, and iOS devices, Kaspersky Plus delivers reliable security and smooth performance for personal and online activities.

Performance tier: Mid-range

Uses: Virus protection, malware blocking, online banking security, VPN browsing, performance optimisation

Description

Kaspersky Plus Internet Security 1 Year License delivers comprehensive protection against evolving cyber threats. Real-time antivirus and anti-malware protect against viruses, ransomware, trojans, and spyware. Anti-phishing and firewall tools safeguard online banking and personal data, while unlimited VPN allows secure browsing and privacy across networks.

Performance tools like hard disk cleaner, app updater, and PC speed-up enhance system efficiency. Privacy features prevent tracking, block malicious ads, and secure webcam and microphone access. With a simple interface, Kaspersky Plus ensures easy management and reliable security for a single device.
