Kaspersky Anti-Virus 2017 - 3 User License

Product Overview

Kaspersky Anti-Virus 2017 - 3 Users, with protection against new and unknown threats: hourly automated database updates + reliminary behaviour analysis + On-going behaviour analysis

Specifications

Overview:

Because you rely on your PC for so many things, Kaspersky Anti-Virus helps you to protect your PC - and everything that you store on it - against viruses, Trojans, spyware and more. Our award-winning, cloud-assisted security technologies make it easier for you to defend your PC from the very latest threats… and all without slowing you down.

Features:

Antivirus
Real-time Protection from new and emerging viruses, spyware, and more as well as Proactive Detection of unknown malware and rollback of harmful activity.

Anti-Spyware
The cloud-based Kaspersky Security Network gathers data from millions of participating users' systems around the world… to help defend you from the very latest spyware and malware attacks.

System Watcher & Rollback
Even if an unknown piece of malware manages to get onto your PC, Kaspersky's unique System Watcher will detect dangerous behavior and allow you to undo or rollback most malicious actions.

Anti-Phishing
Kaspersky Lab's latest anti-phishing engine helps to prevent you disclosing sensitive information to phishing websites that can try to use your confidential data to steal your identity and your money.

Anti-rootkit
The ability to detect active rootkits on a system and to scan hidden files and processes is an important element of antivirus protection. Kaspersky Lab has developed the TDSSKiller utility for removing malicious rootkits.

Automatic Exploit Prevention
Vulnerabilities within commonly used applications can give hackers a gateway into your PC. Automatic Exploit Prevention scans your PC for vulnerabilities and controls the actions of any apps that contain vulnerabilities - so hackers can't exploit them.

FREE, Automatic Updates*
Whenever we introduce new features or new security technologies into the product, you'll get them delivered to your computer - without you even having to click a button. So you won't ever have to worry about whether your protection is up-to-date.

Anti-Screen-Locker
Anti-Screen-Locker functionality helps unblock your PC if it's infected with a ransom-ware Trojan

Security Optimized for Performance
All of our security technologies have been designed to work 'behind the scenes' - and combine efficiency and protection - so your devices can perform as they were designed to.

URL Advisor
Whenever you surf the web, Kaspersky's updated URL Advisor adds color-coded tags to all web links within the list of search results - to warn you about the danger level of any links.

Instant Safety Checks
Instant Safety Checks for files & websites

Gamer Mode
On PCs, our Gamer Mode lets you enjoy a totally uninterrupted, 'full-on' gaming experience - so you can 'lose yourself in the action'.

Technical Support
In addition to our online knowledgebase, you can contact Kaspersky Lab technical experts via email, live chat and phone.

SECURITY -- Keeps you safe from viruses, spyware and more
Think of all the precious things on your PC. Now think of the hundreds of thousands of new malware items that cybercriminals are unleashing every day. You need security that can protect you against the very latest threats. Our award-winning, cloud-assisted security helps you to keep everything on your PC safe against today's threats.

PERFORMANCE -- Lets your PC perform - just as it was designed to
Security shouldn't slow you down. You need rigorous security that works 'behind the scenes'… protecting your PC - without damaging performance. Our development team has worked hard - combining protection and performance - to ensure your PC doesn't have to work so hard… so you're safe to get on with your busy life.

SIMPLICITY-- Simplifies your security - giving you easy, online control
Nobody wants to waste time getting to grips with complex security. If your security software is difficult to set up and run, it could even leave your PC with serious security gaps. By giving you a free My Kaspersky account, we make it easy for you to manage your security - from anywhere that you can get online. You can check your PC's security & license status and adjust key security settings - plus access special offers and download free Kaspersky Lab products. My Kaspersky also gives you easy access to technical support.
