Specifications

About this product

The Logitech MK250 Compact Bluetooth Wireless Keyboard and Mouse Combo offers a reliable, eco-friendly solution for home and office use. With Bluetooth low-energy connectivity, no USB port is required, making it ideal for clutter-free setups. The combo features a spill-resistant keyboard, ambidextrous mouse, and long-lasting batteries, providing up to 12 months of usage for both devices.

Overview Summary:

The Logitech MK250 Bluetooth Wireless Keyboard and Mouse Combo is perfect for South African buyers looking for a reliable, compact solution for work or home use. Its spill-resistant keyboard and ambidextrous mouse provide comfortable, precise control, while the Bluetooth connection ensures a clutter-free, USB-free setup. Shop now for a long-lasting, eco-friendly combo with up to 12 months of battery life.

This combo fits seamlessly in small spaces without sacrificing functionality, featuring a numeric keypad on the compact keyboard and a smooth 1000 DPI optical mouse for accurate navigation. Buy now to enjoy effortless typing and navigation in a sustainable design crafted from recycled materials.

Performance tier: Mid-range

Uses: Home office, remote work, study, casual gaming, everyday computing

Overview:

MK250 Compact Bluetooth Wireless Keyboard and Mouse Combo
The Logitech MK250 compact Bluetooth wireless combo is designed for simplicity, reliability, and comfort. Perfect for both home and office setups, this combo offers easy Bluetooth connectivity, a compact keyboard layout with a number pad, and an ambidextrous mouse for precise control. Built from recycled materials, it delivers long-lasting performance with up to 12 months of battery life for both keyboard and mouse.

Description:

The MK250 Bluetooth combo provides a seamless, wireless typing and navigation experience. Its spill-resistant keyboard, contoured mouse, and durable build ensure reliability in everyday use. With easy pairing, no USB port needed, and eco-friendly design using recycled plastic, this combo combines performance, comfort, and sustainability. Ideal for tight workspaces, it helps users stay productive without sacrificing quality.

Features:

Effortless Bluetooth Connectivity
The MK250 connects quickly with Bluetooth low-energy technology. Pair your keyboard and mouse in seconds without requiring any USB dongles, freeing up your ports for other devices. Whether for work or study, setup is smooth and frustration-free.

Compact Design with Full Functionality
Despite its small size, the MK250 keyboard includes a numeric keypad and all essential keys. The mobile-sized mouse fits comfortably in hand and is easy to move, making this combo ideal for tight desks, shared workspaces, or travel.

Durable and Reliable Performance
Designed to withstand everyday use, the MK250 keyboard is spill-resistant, while both keyboard and mouse offer up to 12 months of battery life. The robust construction ensures long-term performance, helping you maintain focus without frequent interruptions.

Comfortable for Extended Use
The ambidextrous mouse is contoured for comfort, and the keyboard features deep-profile keys that provide a familiar and responsive typing experience. This combination supports accuracy and efficiency during extended work sessions.

Eco-Friendly Build
The MK250 is crafted using recycled plastic-66% post-consumer recycled plastic for the mouse and 64% for the keyboard. Logitech prioritizes sustainability alongside durability, delivering a reliable product that's also environmentally conscious.

Technical Highlights

- Mouse: 1000 DPI optical tracking, 3 buttons, 2D mechanical scroll wheel, 1xAA battery, 12-month battery life
- Keyboard: Compact layout with number pad, tilt legs, 2xAAA battery, 12-month battery life
- Connectivity: Bluetooth low energy, no USB port required
- Build: Spill-resistant, made with recycled plastic

FAQ

Do I need a USB dongle to use the MK250?

No, the MK250 uses Bluetooth Low Energy, so no USB port is required for connection.

How long do the batteries last?

Both keyboard and mouse provide up to 12 months of battery life under normal usage.

Is the keyboard spill-resistant?

Yes, the keyboard is designed to resist minor spills for added durability.

Can the mouse be used by left-handed users?

Yes, the mouse is ambidextrous, suitable for both left- and right-handed users.

What operating systems are supported?

Windows 10/11, macOS 12 or later, and ChromeOS are compatible.
