

KVMIPE20

Microworld KVM IP extender 200m

Product Overview

Microworld KVM IP extender 200m, Max 1080p Resolution, 1x transmitter, 1x receiver, 2x IR cable, Using one Cat5E/6/6A/7 cable

Specifications

Overview Summary:

The Microworld KVM IP Extender 200M allows you to extend your HDMI display and USB devices up to 200 meters over a single Cat5E/6/6A/7 cable, providing crisp 1080p video and seamless peripheral control. Perfect for office setups, conference rooms, and digital signage, this plug-and-play device ensures reliable remote management of keyboards, mice, and displays. Shop now to enhance your workspace with high-definition connectivity.

Performance tier:High

Uses:Remote workstation control, conference room setup, digital signage, HDMI extension, USB device management

Overview:

Microworld KVM IP Extender 200M - High-Definition HDMI and USB Extension

The Microworld KVM IP Extender 200M (model KVMIPE20) allows you to extend your HD display and USB devices over a single Cat5E/6/6A/7 cable up to 200 meters. Ideal for professional workstations, conference rooms, and digital signage, this device ensures seamless high-definition video, audio, and peripheral control from a remote location.

Description:

This HD KVM extender is based on the TCP/IP standard, enabling stable transmission of high-resolution video up to 1080p over long distances. It supports point-to-point connections, one-to-many distribution, and cascading setups, providing versatile deployment options. USB keyboard and mouse control is fully supported, making it easy to manage devices remotely. Plug-and-play design ensures quick installation without additional software. The extender is compatible with HD 1.3 standards and supports IR remote control for added convenience.

Features:

ComX Computers

Product Specification Sheet
