Product Overview

Microsoft Windows 10 Home - DSP Software, Pack - 32-Bit Desktop License - Multi-Language Pack

(DSP software can only be installed on new systems with no O.S. installed - please do not purchase DSP for a system with an existing O.S.)

Specifications

Features:

You're already an expert
Windows 10 is so familiar and easy to use, you'll feel like an expert. The Start Menu is back in an expanded form, plus we'll bring over your pinned apps and favorites so they're ready and waiting for you. It starts up and resumes fast, has more built-in security to help keep you safe, and is designed to work with software and hardware you already have.

Millions of people are already using Windows 10
The Windows Insider Program is a global community of fans who love Windows and want to help make it better. Insiders see the operating system in its earliest stages, and play a role in shaping it. Their feedback has contributed to the best Windows ever.

The web that works the way you do
Windows 10 comes with Microsoft Edge, an all-new browser that's built to give you a better web experience. Write or type notes directly on webpages and share them with others, read online articles free of distraction, and save your favorite reads for later access. And with Cortana3 enabled, you get instant access to key actions-like making reservations or reading reviews-without leaving the page you're on.

Multi-doing helps you get to "done" faster
Easily snap up to four apps in place and see all open tasks in a single view. You can even create virtual desktops when you need more space or want to group things by project.

Windows Store is your one-stop shop
Introducing the new Windows Store, a unified shopping experience across every Windows 10 device. Browse the store on your PC, tablet, or phone and easily purchase great digital content including apps, games, music, movies and TV shows.

Meet Cortana, your truly personal digital assistant
Cortana works across your day and your devices to help you get things done. By learning more over time, Cortana becomes more personal and useful to you. Cortana's also best at reminders, delivering them at the right time and place so you forget less and can do more.

Interact with your device however you want
Touch, type, write: the choice is yours so you can use whatever works best for what you're doing.

The best screen is always the one you're on
Windows 10 enables your apps to look and work great in all modes, on all devices. On 2-in-1 devices, your screen can be optimized to work with touch or keyboard and mouse.

Xbox is coming to Windows
Get the biggest Xbox franchises with the best of Xbox Live. Start recording gameplay in seconds, compete against console players, and stream games from your Xbox One console to your Windows 10 device from anywhere in your home.

Great apps come standard
Windows 10 comes with great built-in apps like Maps, Photos, Mail & Calendar, Music, and Video. And these apps use OneDrive to back up your information and sync seamlessly across your Windows 10 devices, so you're never far from what you need.

System requirements:

- Latest OS: Make sure you are running the latest version either Windows 7 SP1 or Windows 8.1 Update.
- Don't know which version you are running? Check here to find out.
- Need to download the latest version? Click here for Windows 7 SP1 or Windows 8.1 Update.
- Processor: 1 gigahertz (GHz) or faster processor or SoC
- RAM: 1 gigabyte (GB) for 32-bit or 2 GB for 64-bit
- Hard disk space: 16 GB for 32-bit OS 20 GB for 64-bit OS
- Graphics card: DirectX 9 or later with WDDM 1.0 driver
- Display: 800x600

Additional requirements to use certain features:

- Cortana is only currently available on Windows 10 for the United States, United Kingdom, China, France, Italy, Germany, and Spain.
- Speech recognition will vary by device microphone. For better speech experience you will need a:
- High fidelity microphone array
- Hardware driver with Microphone array geometry exposed
- Windows Hello requires specialized illuminated infrared camera for facial recognition or iris detection or a finger print reader which supports the Window Biometric Framework.
- Continuum is available on all Windows 10 editions by manually turning "tablet mode" on and off through the Action Center. Tablets and 2-in-1's with GPIO indicators or those that have a laptop and slate indicator will be able to be configured to enter "tablet mode" automatically.
- Music and Video stream through the Xbox Music or Xbox video app available in certain regions. For the most up to date list of regions, please go to Xbox on Windows website.
- Two factor authentication requires the use of a PIN, Biometric (finger print reader or illuminated infrared camera), or a phone with Wi-Fi or Bluetooth capabilities.
- The number of applications that can be snapped will depend upon the minimum resolution for the application.
- To use touch, you need a tablet or a monitor that supports multi-touch. (more info)
- Microsoft account required for some features.

- Internet access (ISP) fees might apply.
- Secure boot requires firmware that supports UEFI v2.3.1 Errata B and has the Microsoft Windows Certification Authority in the UEFI signature database.
- Some IT administrators may enable Secure Logon (Ctrl + Alt + Del) before bringing you to the log in screen. On tablets without a keyboard, a tablet with the Windows button maybe required as the key combination on a tablet is Windows button + Power button.
- Some games and programs might require a graphics card compatible with DirectX 10 or higher for optimal performance.
- BitLocker To Go requires a USB flash drive (Windows 10 Pro only).
- BitLocker requires either Trusted Platform Module (TPM) 1.2, TPM 2.0 or a USB flash drive (Windows 10 Pro and Windows 10 Enterprise only).
- Client Hyper-V requires a 64-bit system with second level address translation (SLAT) capabilities and additional 2 GB of RAM (Windows 10 Pro and Windows 10 Enterprise only).
- Miracast requires a display adapter which supports Windows Display Driver Model (WDDM) 1.3, and a Wi-Fi adapter that supports Wi-Fi Direct.
- Wi-Fi Direct Printing requires a Wi-Fi adapter that supports Wi-Fi Direct and a device that supports Wi-Fi Direct Printing.
- To install a 64-bit OS on a 64-bit PC, your processor needs to support CMPXCHG16b, PrefetchW, and LAHF/SAHF.
- InstantGo works only with computers designed for Connected Standby.
- Device encryption requires a PC with InstantGo and TPM 2.0.
