Specifications

Features:

Full HD Immersive Entertainment
Enjoy gaming, movies, shows and videos in Full High Definition. LG's FHD Monitors present amazingly true color performance with an IPS display to give you an experience that wows from virtually any viewing angle.

Improved Visual Comfort
Reducing blue light to help lessen eye fatigue, Reader Mode provides optimal condition for reading. With just a few easy adjustments, you can more comfortably read your screen.

Reduces Visual Fatigue
Flicker Safe reduces the onscreen flicker level to almost zero, which helps protect your eyes. Users can comfortably work throughout the day.

1ms Motion Blur Reduction
Enhanced response delivers less blur in fast-action scenes. When activated, 1ms Motion Blur Reduction gives gamers an edge on the competition - smooth motion and movement like you've never seen.

AMD FreeSync
AMD FreeSync compatibility brings clearer, faster, smoother game play. Reduce screen tearing and minimize stutter and input lag to experience virtually seamless, fluid movement in high-resolution and fast-paced games.

Dynamic Action Sync
Dynamic Action Sync elevates your gameplay for a pro-level experience. Respond to action, opponents and every moment with minimized input lag and unbelievable performance.

Black Stabilizer

Your gameplay is never in the dark. Black Stabilizer is your ally to attack or defend against enemies hiding in the shadows. It delivers a pro-level gaming experience for enhanced vision and a jump on the competition.

Crosshair

Accuracy is at the center of your gameplay with the Crosshair feature. Center-display crosshairs give enhanced vision and pro-level precision for increased accuracy in first-person shooter games.

OnScreen Control for Gaming

Experience pro-level control and customization. OnScreen control for gaming gives more control, customization and convenience without interrupting your gameplay.
