LC-LE2060T

LG 20" LED Display Monitor

Product Overview

LG E2060T-pn 20" LED Display Monitor, 12.9mm ultra thin, 1600x900 (WXGA++); brightness- 250cd/m2; DFC contrast ratio- 5000000:1, response time- 5ms - d-sub+Dvi

Specifications

Overview:

E-60 Series boasts a further reduced depth of 12.9 mm an incredibly slim size made possible with LG's innovative technology. Also, the narrow bezel and trim body create a slim style.

Features:

0.5" Slim Technology
Slim design is possible with a high-performance chip that has the power of two chips in one. Moreover, the Ass'y depth is dramatically compressed to realize an innovatively slimmer body of 0.5 inch.

Mega Contrast Ratio with Premium
E60 series LED backlight panels sets a new standard for monitors with excellent such as incomparably slim width, Mega Contrast Ratio that reproduces deeper and richer pictures, and low power consumption that helps preserve the environment.

Low Power Consumption
As a monitor that cares for the environment as well as your economy, E60 Series employs high-efficiency, Eco-friendly LED backlight to consume 45% less energy than normal LCD monitors. (20¡+/- model standard)

Unique Design
Captivating transparent neck that is as clear and brilliant and lighting that stylishly changes to blue when the PC is on and to red when the PC is turned off. E-60 Series demonstrated a truly creative design that perfect your interior.

Various Interfaces
Terminals for D-sub, DVI-D, and HDMI are incorporated at the rear for utmost compatibility that goes with the style. (*V series model only)

EZ Control Mode
Function key descriptions are not printed on the bezel but are visualized on the screen for easy and intuitive control. Also, navigation buttons are shown on the screen area above the touch buttons to make menu movement more convenient.

Specifications:

HIGHLIGHTS
