Product Specification Sheet

This bulb has an E14 fitting which is compatible with a range of table lamps. The equivalent of a 35W halogen bulb, this bulb gives a bright output of 200lm while only using 3W of power. The reduced power will save you both electricity and money. This bulb is not compatible with a dimmer but gives you a 2750K warm white glow that gives soft lighting effects in living rooms, dining rooms and hallways.

Why should I buy LED over halogen?

Giving you the latest generation technology, LED bulbs will last up to an impressive ten times longer than halogen bulbs, using less power for the same light output therefore saving you money on your electricity bills. LED bulbs are available in a wide variety of fittings, shapes and styles, so you will be able to find one to suit your needs.
