Microworld LED bike light. 3 blue LEDs with multiple lighting modes, and 2 red lasers for safety line behind the bike. 3 blue LEDs; 2 red safety lasers; 7 lighting modes; 2 x AAA batteries required (not included); seat post mount; water-resistant; compact lightweight LED bike light.

Specifications

About this product

The Microworld LEDB01 is a portable and durable rear bicycle light with 5 super-bright LEDs and dual laser lines. Designed to improve night riding safety, it offers multiple flash modes and wide visibility, fitting seat posts 20-31mm in diameter.

Overview Summary

Microworld LEDB01 Bicycle Tail Light

This compact rear bike light enhances safety during night rides with three high-intensity LEDs and two laser lines that create a visible safety lane. Its lightweight and portable design makes it easy to attach and remove from most bicycle seat posts.

The LEDB01 provides seven lighting modes, including steady, flash, slow flash, left-to-right and right-to-left patterns, ensuring high visibility in different conditions. Its IPX-II water resistance protects against raindrops, fog, and splashes, while an adjustable buckle fits seat posts with diameters from 20 to 31mm.

Performance tier: Entry-level / Safety

Uses: Cycling, night riding, commuter safety, recreational biking

Description

The Microworld LEDB01 tail light is designed for maximum safety during night cycling. It features three bright LEDs and dual laser lines that project a visible lane behind the rider. The compact and lightweight design makes it easy to carry and mount on seat posts between 20-31mm diameter.

With seven lighting modes, including steady-on, rapid flash, slow flash, left-to-right, right-to-left, and back-and-forth patterns, the LEDB01 ensures high visibility in all riding conditions. The IPX-II rated water-resistant shell protects against rain and fog, while ABS and acrylic construction guarantees durability. This tail light is ideal for mountain, road, and commuter bicycles.

Features

- Three super-bright LEDs for clear rear visibility
- Two laser lines create a visual safety lane behind the bike
- Seven flash modes: steady, rapid flash, slow flash, left-to-right, right-to-left, slow back-and-forth
- Durable ABS + acrylic shell construction
- Portable, lightweight, and easy to carry
- Adjustable buckle fits seat posts 20-31mm diameter
- IPX-II waterproof rating for rain and fog protection
- Suitable for mountain, road, and commuter bicycles

- Suitable Bicycle Type: Mountain, road, commuter bicycles

FAQ

What type of batteries does the LEDB01 use?

The LEDB01 uses 2 x AAA batteries, which are not included in the package.

How many LEDs and lasers are on the tail light?

It features 3 LEDs for main illumination and 2 laser lines to create a visible safety lane behind the bicycle.

Is the tail light waterproof?

Yes, it meets IPX-II water-resistant standards, protecting against raindrops and fog while riding.

Which seat post sizes are compatible?

The adjustable buckle fits seat posts ranging from 20 to 31 mm in diameter.

What are the lighting modes?

There are seven modes: steady, rapid flash, slow flash, left-to-right, right-to-left, and back-and-forth flash patterns, including variations with the laser lines.
