Hisense 40" Ultra Slim LED Backlit Full HD TV

Product Overview

Hisense 40" Ultra Slim LED Backlit Full HD TV, 1920 x 1080 Resolution

Specifications

Overview:

Fly away with us into a world where reality takes the back seat to imagination, sensation and intrigue. With Hisense LED, the optical limits and boundaries of traditional television are defied. And believe us, you imagination will leave you no choice but to indulge.

Features:

- TV Type: Flat-Panel
- Display Technology: LED LCD
- Screen Size: 40"
- Definition: HDTV
- Resolution: 1080p
- Display Resolution: 1920 x 1080 pixels
- Rear Input Connectors: HDMI x 3

USB 2.0 Multimedia
The USB connector allows access to multimedia (JPG, MP3, etc) from most USB-flash drives and digital cameras (USB memory-class device). Plug the USB into the slot on the side/bottom of the TV and access your photos, music or movie files.

HDMI
supports both digital audio and video in one connection. It makes an uncompressed digital RGB connection from the source to the screen for the ultimate picture quality. With multi-HDMI inputs on the back and side of the TV, you can connect multiple HD sources, such as a HD set-top box, a blue-ray player, and a game console or digital AV player. Your TV is fully prepared for the HD future.

Enhanced Color Imaging
Using the world's most advanced second-generation image quality enhancement technology (color gamut enhancement technology), Hisense is able to improve the three primary colors imaging and processing technology, and intuitively and

effectively adjust and repair the color deviation. In this case, we can not only make most use of the display component to get ideal color, but also precisely adjust color gamut so that the color gamut coverage can come to 80 percent.

Digital LED Technology
Witness the entire RCG spectrum brought to life on your screen. The HiSense LED TV brings you exceptionally vibrant and true-to-life images delivered just as the director imagined.

Full HD 1080p
With 1920x1080 full high definition resolution, the images are so life-like, it feels like you're really there. 1,080 horizontal lines create stunning details and crystal-clear, vibrant colours to create a brilliantly realistic picture.

Dynamic Contrast
Uncover hidden colours and details with HiSense TVs. Ultra Dynamic Contrast allows you to obtain a high contrast ratio, which gives you "blacker" blacks and brighter colours.
