Specifications

Features:

144Hz refresh rate
Conquer every enemy, even at soaring speeds. 144Hz refresh rate eliminates lag and motion blur for exhilarating gameplay with ultra-smooth action.

1ms response time
Make every move count with a 1ms response time. Jump on enemies as soon as you see them and stay ahead with precise mouse movements. Your on-screen performance is as swift as your own reflexes.

AMD FreeSync Premium
Effortlessly smooth gameplay. AMD FreeSync Premium features adaptive sync technology, which reduces screen tearing, stutter, and input latency. Low framerate compensation ensures every scene flows seamlessly.

See your game your way
Reach the height of winning. Swivel, tilt, and adjust your monitor until all enemies are in perfect view. Your display can be moved freely so you can find total gaming comfort.

Full screen design
Your legacy has no boundaries. The 3-sided borderless design unveils maximum space for bigger, bolder gameplay. Line up two displays precisely in a dual-monitor setup, so no enemies slip through the crack.

Fresh eyes win more
Play for even longer. Eye Saver Mode minimizes blue light enough to keep eyes relaxed and comfortable when gaming for extended periods. Flicker Free technology continuously removes tiring and irritating screen flicker so you can focus longer with less distraction or eye strain.
