LG-23EA53V

LG 23EA53V 23" Wide LED Monitor

Specifications

Features:

FULL HD

FULL HD resolution brings you magnificent picture quality through outstanding color accuracy, visual contrast and sharpness.

Lifelike Colour
As LG IPS Monitor features consistency and less changes in color temperature, it offers a colour impression close to that of the original image.

Wide Viewing Angle
LG IPS Monitor allows you to enjoy lifelike picture quality without any color shift whether you are standing or lying down.

Smooth Color Change
The LG IPS Monitor always provides clear images with smooth color changes. It allows you to enjoy any content, such as action movies, web surfing and RPG games for a long time in comfort.

Super+ Resolution
LG provides a solution with SUPER+ Resolution technology, which improves the resolution of original contents and make them look good on a larger screen.

Dual Smart Solution
Efficient multi tasking is available through the Dual Smart Solution function. The function allows simple set up of dual monitor, dual taskbar and dual web (screen split).

HDMI
HDMI receives signals for high resolution contents without distortion or compression for the vivid reproduction of contents played by the latest HD entertainment devices.

Super Energy Saving
LG SUPER Energy Saving technology has been upgraded so that the additional energy saved besides the effect of the LED backlight, has improved from 25% to 30%.
