LG-24GM77-B

LG 24GM77-B 24" Wide Full HD LED Gaming Monitor

Specifications

Features:

144Hz for Smooth Gaming
Enjoy your fast-paced games in crystal clarity with a 144Hz refresh rate. Now you can focus on your playing, not motion blur.

Experience Clear Motion 240
First Person Shooter games appear smooth thanks to a response time of faster than 1ms. Clear Motion 240 helps reduce motion blur so you don't miss out on the action.

Dynamic Action Sync for Real-Time Action
Minimize input lag with Dynamic Action Sync so you can catch every single moment in real-time.

Enhance Gamer Visibility in Dim Light
Keep visibility even in dark scenes. LG's Black Stabilizer senses dark scenes and helps make it brighter so that you can find the enemies hiding and waiting to attack your player in the dark.

Three Gaming Modes
Set your game mode for optimal gaming. There are 3 gamer modes, two First-Person-Shooter modes and even an RTS pre-set mode so you can choose the best mode for you.

Find the Best Angle For Your Gaming
The ergonomic stand can support your long gaming sessions at every angle.
