LG 24M38

LG 24M38H 24" Led Display

Product Overview

LG 24M38H 24" Led Display - 1-click button for up to 4-screen split or PiP, with flicker free safe mode, on-screen control, Full HD 1920x1080 (WUGA+); brightness- 200cd/m2; DFC contrast ratio- 5000000:1, response time - 5ms - d-sub+HDMi+headphone out - 100x100mm vesa wall-mountable

Specifications

Features:

Preset Customized Options with just a Click
OnScreen Control and My Display presets allow you to easily customize monitor settings with a few clicks of a mouse.

Customize Your Workspace for Multitasking
Screen Split divides the display for different tasks by resizing the windows on the screen. With PIP Mode you can work while watching a video in a window floating on the screen.

Offers Improved Color Vision to color Weakness
Color revision algorithms are used to help those with color weakness who have difficulty distinguishing certain ranges of colors can view all the important content.

Contact Information
For any inquiries about purchasing or technical supports, please find your local office in your country. If there is no listing for your country, please contact the nearest country to yours.
