

LG CJ98P.DZAFLK

LG CJ98 3500W Hi-Fi Entertainment System with Bluetooth Connectivity

Product Overview

LG CJ98P.DZAFLK CD MINI HIFI RMS 3500W; CD; 2 USB; Party Thruster; 2 Mic In; Karaoke Star; Multi BT; TV Sound Sync; DJ Pro

Specifications

Features:

Powerful Bass

When a DJ wants to really rock the house, it's all about the bass. This powerful speaker pumps out thumping, thunderous low-end from its mighty woofer for bass you can feel as well as hear.

Party Thruster

Build up the energy with the Party Thruster controller. Simply slide the throttle forward and hear the party build up until you hit maximum party at which time the system booms and the lights go crazy.

Karaoke Creator

Get ready to croon along with any tune: This feature suppresses the vocal frequencies of a song, making any track ready to play behind a new lead singer! It can even change the key of the song to better suit the voice of the singer*.

Dance Lighting

Music and the right lighting just go together. This system offers multiple lighting modes and a variety of effects, including a feature that lets the light pulse to the beat of the music so everyone can feel and see the rhythm.

Voice Filters

The karaoke feature includes built-in sound-enhancing voice filters to make any singer sound even more like a star. They can even change voices completely for added fun.

Bluetooth Connectivity

Wirelessly stream music directly from your Smartphone or other compatible device for a seamless listening experience.

Shared Jukebox

Up to three different people can connect their devices to the speaker system via Bluetooth and build a playlist on the fly, without ever interrupting the party. Pick any available song, then just add it to the queue.

Product Specification Sheet

Effects Creator

Now DJs' only limits are their imagination! Record effects on a smartphone and easily sync them to the sound system via Bluetooth to throw down fresh new beats. It's music creativity unleashed.
