Specifications

Features:

The Sound Bar for the Serious Watcher
Enjoy the breakthrough sound of Dolby Atmos®. With this high-performing sound bar the action transports you inside the experience to complete your home theater.

An Exceptional Cinema Experience At Home
Both audibly and aesthetically outstanding, LG Sound Bar SK10Y creates a true cinematic space, delivering powerful surround sound. Enhance your entertainment experience with exceptional sound quality.

Meridian Audio
Enjoy sound quality previously unavailable in a sound bar. Technology from the renowned experts at Meridian Audio combines advanced signal processing and hardware design to expand image height and widen the sound field, with custom Clear Vocal and Enhanced Bass presets for uncompromising performance.

Dolby Atmos®
Experience cinematic sound at home: With Dolby Atmos®, the action can move anywhere in three-dimensional space, including above the listener for the ultimate in surround audio. (Dolby Atmos audio available on select titles.)

High Resolution Audio
Digital music for audiophiles, with higher sampling rates and bit depth, both of which can contribute to more accurate, more enjoyable music listening. This certified Hi-Resolution Audio sound bar can play back lossless stereo audio at up to 24-bit/192kHz quality.

Chromecast Compatible
Google Chromecast™ works seamlessly with popular music apps like Pandora® and Google Play™ Music, enabling wireless audio from a compatible phone or tablet, iPhone®, iPad®, Mac® or Windows® laptop or Chromebook™. Simply open a Cast-enabled app and touch the Cast button to get started.

Works with Google Assistant

You can play music, skip tracks, and adjust the volume on your Sound Bar with your voice. You just need another device with Google Assistant built-in - like the LG ThinQ® Speaker.

Wireless Surround Ready

This upgradeable sound bar has been designed to integrate with the SPK8-S optional wireless surround speakers (kit sold separately), adding the premium home theater audio of dedicated rear channels, with wireless convenience.

4K Pass-Through

4K resolution is the new video quality standard for TVs, and to offer the full 4K home theater experience from streaming, disc and beyond, sound bars need to be able to input and output the 4K signal, with no loss of image quality.

Harmonious Design

Its sleek design blends in perfectly with your beautiful modern interior.
