Lekkermotion 17" To 36" Single Monitor Arm With Quick Release Vesa Plate

Product Overview

Lekkermotion Single Monitor Arm With Quick Release Vesa Plate - 17" To 36"

Specifications

Overview:

Adding adjustability to your monitor means less eye and neck strain. Those are reasons enough to choose a monitor arm that's designed using real gas lift technology that's so perfectly balanced it takes the mere touch of a finger to find the perfect viewing position. Our product line also includes mechanical spring & regular monitor arms for different needs.

Features:

- The arm easily adjusts to support an ergonomically correct workstation; sit more comfortably at your desk while reducing neck, eye, and back strain.
- The gas spring hovering system gracefully adjusts monitor height.
- Durable hardware supports clamp or grommet installation.
- The cable management system organizes wires for a tidy desk
- Quick-release VESA plate for easy adjustment.
- A high-quality ball joint tilts and swivels your monitor.

As Easy as 1-2-3
Quick-release VESA plate for easy adjustment.

Wider Range of Motion, Wider Range of Options
The DLB851 single monitor arm comes equipped with a long, flexible arm that stretches 24.5" when extended and raises to a max height of 20.1 inches. A wider range of motion gives you more options for your workspace. Perfect for deeper desktops or for jobs that require only occasional standing.

Short Clamp Optional
Short footprint firmly holds the whole construction?only 20~25mm

Gas Spring Monitor Arm with Quick Release VESA Plate
With its special quick-release VESA plate, DLB851 can support a 36 monitor weighing up to 26.4 lbs. The Arm easily adjusts,

allowing you to work in a more comfortable, ergonomically correct position. Staring at a computer screen that's not eye level can cause neck and eye strain, as well as painful back problems. Quality craftsmanship, impressive functionality, and unparalleled design raise the bar for this mount to the highest level.
