Logitech Mouse Pro X3 Superstrike Wireless Gaming Mouse - Black

Product Overview

Logitech Mouse Pro X3 Superstrike Wireless Gaming Mouse - Black, Features Haptic inductive trigger system (Hits) Technology for record-breaking click Speed, Includes new Flagship NxLOGI Chipset and Hero 2 Optical Sensor, Maximum Tracking Resolution of 48000 dpi with sub-micron Precision, Max movement Speed up to 930 IPS and acceleration over 90 Gs, Battery Life reaches 135 hours under Constant motion conditions, Wired report rate of 8000Hz, Features Tunable actuation and Reset points for both Main Keys, Supports Six intensity options for Real-Time click haptics, Includes LightSpeed Wireless Receiver and USB-C charging cable in the Box, 910-007879

Specifications

Summary Overview:

Dominate your games with the Logitech PRO X3 SUPERSTRIKE Wireless Gaming Mouse in Midnight Black, now available for fast delivery across South Africa. Engineered for elite competitors, this mouse features the revolutionary Haptic Inductive Trigger System for record-breaking click speeds and an upgraded HERO 2 sensor that tracks movement with sub-micron precision at over 930 IPS.

Designed to give you a competitive edge without compromise, the PRO X3 offers over 135 hours of battery life and fully customizable actuation points through Logitech G HUB software. Whether you are in intense FPS battles or MOBA matches, this lightweight yet durable mouse ensures your every move is registered instantly. Secure yours today to experience the winning click.

Performance tier: Professional Esports Level

Uses: Competitive gaming, FPS titles, MOBA games, eSports tournaments, high-speed PC gaming

Overview:

The Logitech PRO X3 SUPERSTRIKE in Midnight Black represents the pinnacle of wireless gaming mouse technology, designed for elite esports athletes and serious gamers who demand absolute precision. This Pro Series powerhouse integrates the revolutionary Haptic Inductive Trigger System (HITS) with a brand-new flagship chipset to deliver an unmatched clicking experience. By replacing traditional microswitches, this mouse achieves record-breaking click speeds while reducing latency significantly compared to standard gaming peripherals.

The PRO X3 SUPERSTRIKE is lighter and more balanced than its predecessors, offering extended battery life and superior wireless performance through the advanced LIGHTSPEED technology. Whether you are engaging in fast-paced competitive shooters or strategy games, this mouse ensures that every movement and click is tracked with sub-micron precision using the upgraded HERO 2 sensor.

Description:

The Logitech PRO X3 SUPERSTRIKE (Part Number: 910-007879) elevates competitive gaming with its proprietary Haptic Inductive Trigger System, delivering the fastest and most customizable clicks on the market. This Midnight Black wireless mouse combines a lightweight 61g design with an industry-leading battery life of over 135 hours, ensuring you can game for longer without interruption. The new NxLOGI chipset enhances power efficiency while the HERO 2 sensor provides flawless tracking at speeds up to 930 IPS and resolutions up to 48,000 DPI.

Built in collaboration with world-class esports professionals, this mouse is fully tunable for your unique playstyle. You can

adjust actuation and reset points to match your finger mechanics, customize haptic feedback intensity, and save your preferred settings directly to the onboard memory via Logitech G HUB software. It also includes an aperture door for wireless charging compatibility with POWERPLAY systems.

Features:

The Winning Click Technology

This mouse defines a new standard in click performance through its innovative engineering. The HITS technology removes physical contact points that cause wear and delay, resulting in a more consistent and faster response time. Users can expect up to 30 milliseconds less latency per click, giving you a distinct advantage in split-second reactions.

- Haptic Inductive Trigger System (HITS) for zero-contact clicking
- Reduced click latency by up to 30 ms compared to standard switches
- Custom actuation and reset points tailored to user preference
- NxLOGI chipset providing a 50% reduction in power consumption
- Six intensity options for real-time click haptics feedback

Performance and Tracking Specifications

At the heart of the PRO X3 SUPERSTRIKE lies the advanced HERO 2 sensor, which tracks movements with extreme accuracy regardless of speed. The mouse supports zero smoothing, acceleration, or filtering to ensure a direct connection between your hand movement and on-screen cursor. This optical tracking technology works seamlessly across various surfaces when paired with high-quality gaming pads.

- Sensor: Upgraded HERO 2 Optical Sensor
- DPI Range: Adjustable from 100 to 48,000 DPI
- Maximum Speed: Over 930 IPS (Inches Per Second)
- Maximum Acceleration: Over 90 Gs
- Report Rate: Up to 8000 Hz for wired mode compatibility
- No smoothing, acceleration, or filtering enabled by default

Dimensions and Design

The physical design of the PRO X3 SUPERSTRIKE prioritizes comfort and balance without sacrificing durability. Weighing in at just 61 grams, it is one of the lightest mice in its class, allowing for rapid flicks and sustained control during long gaming sessions. The ergonomic shape fits naturally in the hand while maintaining a low profile for easy access to all buttons.

- Height: 125 mm
- Width: 63.5 mm
- Depth: 40 mm
- Total Weight: 61 grams
- Color: Midnight Black
- Number of Buttons: 5 programmable buttons

Battery Life and Connectivity

Gamers can play for extended periods without worrying about power. The efficient NxLOGI chipset enables a battery life exceeding 135 hours under constant motion conditions, which is an improvement of over 45 hours compared to the previous generation. You can recharge quickly using the included USB-C cable or utilize wireless charging capabilities when used with the Logitech POWERPLAY system.

- Battery Life: Up to 135+ hours
- Charging Interface: USB Type-C (Wired/Charging)
- Wireless Technology: LIGHTSPEED Wireless Gaming Mouse
- Compatibility: Windows or macOS with USB 2.0 or higher port
- Software Support: Logitech G HUB for full customization

Tunable Actuation and Customization

Just like the mechanical keyboards favored by professional players, this mouse allows you to fine-tune the feel of every click. The system offers 10 distinct actuation points and 5 rapid-trigger reset points for both main keys, letting you customize travel distances to suit your style. You can also sync custom hardware with inductive sensing systems to generate tactile feedback on every click.

- Adjustable actuation travel distances
- 10 selectable actuation point settings
- 5 rapid-trigger reset point configurations
- Six intensity levels for haptic feedback customization
- Onboard memory to save profiles without software

What's in the box:

- PRO X3 SUPERSTRIKE Wireless Gaming Mouse
- LIGHTSPEED wireless receiver
- USB A to C Charging/data cable
- Receiver extension adapter
- POWERPLAY aperture door
- Optional grip tape
- Cleaning cloth
- User documentation

To get the most out of your device, Logitech G HUB software allows you to fine-tune click settings, calibrate sensors, and manage profiles. You can create community profiles or import settings from professional players to tailor the experience further. The system requirements are minimal, needing only an internet connection for initial software setup and a standard USB port for operation.

FAQ

What makes the click mechanism on this mouse different from traditional gaming mice?

The PRO X3 SUPERSTRIKE uses the Haptic Inductive Trigger System (HITS) instead of standard microswitches, which reduces click latency by up to 30 ms and provides real-time haptic feedback with six intensity options.

How long does the battery last on a single charge?

You can expect over 135 hours of constant motion gaming per charge thanks to the new NxLOGI chipset, which also allows you to recharge via USB-C or use it wirelessly with a POWERPLAY charging pad (sold separately).

Can I customize how my mouse clicks feel?

Yes, using Logitech G HUB software you can tune both actuation and reset points for the main keys, choosing from 10 different actuation distances and 5 rapid-trigger reset settings to match your playstyle.

What are the system requirements for this wireless mouse?

The PRO X3 SUPERSTRIKE is compatible with Windows or macOS computers that have an available USB 2.0 (or higher) port, though internet access is required to download and use Logitech G HUB software.

What specific tracking performance does the HERO 2 sensor offer?

This mouse features a HERO 2 optical sensor capable of up to 48,000 DPI resolution, over 930 IPS max speed, and greater than 90 Gs acceleration with zero smoothing or filtering for sub-micron precision.
