Performance tier:Entry-level

Uses:Video calls, gaming, music, webinars, Skype chats

Overview:

Logitech H111 Wired Stereo Headset - Versatile Audio for All Your Devices

The Logitech H111 wired stereo headset offers a seamless audio experience for various devices, from computers and smartphones to tablets. With a user-friendly design and clear, reliable sound, this headset is the ideal choice for daily communication tasks, including voice calls, video conferences, music, and gaming.

Affordable and Versatile Audio Solution

Designed to be a no-fuss, high-performance headset, the Logitech H111 is the perfect choice for anyone looking for simple, effective audio for everyday use. It connects easily with a standard 3.5mm audio jack, making it compatible with a wide range of operating systems and platforms, including Windows, macOS, Android, and iOS devices. Whether you're on a video call or enjoying your favorite tunes, this headset provides everything you need to hear and be heard clearly.

Features:

Optimized for Multi-Device Use

This headset is built with multi-device functionality in mind. Its 2.35-meter cable provides plenty of reach, so you can comfortably move around during long calls or meetings. Ideal for voice calls, Skype chats, webinars, and more, the Logitech H111 offers excellent sound quality, ensuring your conversations are smooth and clear.

Stereo Sound for Every Use

With stereo sound, the Logitech H111 ensures a rich audio experience, whether you're listening to music, playing games, or engaging in video calls. The headset delivers crisp and clear sound, making it a reliable choice for various audio tasks. Whether it's a work call or a family catch-up, you can trust the H111 for consistent, high-quality audio.

Flexible, Rotating Microphone

The rotating boom microphone can swivel 180degrees, allowing you to position it on either side of your face for optimal voice capture. This flexibility also helps reduce background noise, so you can enjoy clearer conversations without distractions. When not in use, the microphone can be neatly tucked out of the way for added convenience.

Comfortable and Adjustable Fit

Designed with comfort in mind, the Logitech H111 features an adjustable headband that ensures a secure, personalized fit. The ultra-soft foam ear cushions provide comfort during extended wear, making this headset a great choice for long video calls, webinars, or gaming sessions. Despite its durable build, the headset remains lightweight, so you can enjoy hours of use without discomfort.

Easy 3.5mm Connection

ComX Computers

Product Specification Sheet

Connecting the Logitech H111 to your device is simple-just plug the 3.5mm jack into your computer, smartphone, or tablet, and you're ready to start talking. The headset's plug-and-play design means no drivers or software are required, offering hassle-free setup and use.

Key Benefits:

- Multi-device compatibility for seamless use across various platforms
- Clear stereo sound for calls, music, and gaming
- 180degrees rotating microphone for flexible positioning and noise reduction
- Comfortable, adjustable fit with soft ear cushions for long-term use
- Easy plug-and-play connection via 3.5mm jack
